PLAN ADOPTED BY CONGRESS FOR THE SUBDIVISION OF PUBLIC LANDS.

ONE of the earliest acts of the Fathers of the Republic, assembled in Confederate Congress, was the formation of what is appropriately termed the "Land System of the United States," providing for the survey of the vast territories of land embraced within their borders, and their sale, or other disposition, to the people who were to possess and enjoy them. On the 7th of May, 1784, was introduced "An Ordinance for ascertaining the mode of locating and disposing of lands in the Western Territories," which, however, did not become a law till the year following, May 7, 1785. The ordinance made provision for surveying and disposing of the public domain, as well as for donations in the cause of education and for military purposes.

The rectangular system of survey, adopted by this ordinance, now extends from the Atlantic to the Pacific Oceans, and from the northern to the southern boundaries of the Union, except in the six New England States, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia, Tennessee, Kentucky and Texas, the United States not being the owner of lands in any of these political divisions. For nearly a century this system has commended itself to the people, not only for its accuracy in designating the location and lines of the various tracts of land embraced by it, but for its general convenience.

Under this system, initial or starting points are designated, where certain Base Lines, so termed, running East and West on a parallel of latitude, are crossed by other lines, called Meridian lines, running North and South of said Base lines. These Base Lines and Meridian Lines are extended at pleasure, or as far as may be deemed necessary or convenient. There are at present permanently established twenty principal Base Lines, and twenty-five principal Meridians, governing the surveys in the several States and Territories. In California there are three different initial points, necessitated by abrupt mountain ranges running through the State.

These Base Lines and Meridian Lines being duly established, the Territory is divided into Townships of six miles square, containing 23,040 acres, and these are numbered in the following manner:

Commencing at the initial, or crossing point, the first Township North and East is designated as Township one, North of Range one, East. The next Township North would be styled Township two, North of Range one, East, and so on. So there would be Townships North, and Ranges West; Townships South, and Ranges East or West, as the case might be. The following diagram will explain this system more definitely:

Here are townships 1, 2, 3 and 4 north of the Base Line, and in Ranges, as these lines or columns of parallel townships are called, numbering 1, 2, 3, 4, East of the Meridian. In the prairie regions of the Northwest the Township numbers sometimes extend to one hundred, and the Ranges nearly to the same extent.

Thus by reference to the map of Indiana it will be seen that the Base Line runs East and West through the counties of Gibson, Pike, Dubois, Orange, Washington and Clark. North of this line the Townships are numbered from one to thirty-eight, and South from one to fourteen. The Meridian Line running North and South crosses the Base Line in Orange County, on each side of which Ranges are numbered East and West to the State Line. Should it be desired to locate Township 36, north of Range 6 East, follow the Meridian Line north from the initial or crossing point to the township numbered 36, and then east to the 6th range, and the location will be found to be in the centre of the county of Elkhart.

The lines of public surveys over level ground are measured with a four-pole chain 66 feet in length, 80 chains constituting a lineal mile; but with a two-pole chain where the features of the country are broken and hilly. The lines thus chained are marked through timber land by chops or "blazes" on line trees on each side, and, in the absence of such trees, those standing nearest the survey, on both sides, are blazed diagonally toward the line run. Trees standing at the precise spot where legal corners are required are made available. If no such trees are there, the corners are perpetuated by posts or stones, with inscriptions, and the positions of the same are indicated by witness trees or mounds, the regular bearings and distances from the corner being ascertained and described in the field notes. The lines intersecting navigable streams require the establishment of meander corner posts, the courses and distances on meandered navigable streams governing the calculations from which the true contents of fractional lots are computed and expressed on township plats. Township corner posts, or posts common to four townships, are set diagonally, properly marked with six notches on each of the four angles set to the four cardinal points of the compass, and mile-posts on township lines are marked with as many notches on them as they are miles distant from the township corners respectively; the four sides of the township and section posts, which are common to four townships or sections, are marked with the corresponding numbers of sections.

The Principal Meridian and Base Lines having been first measured and marked, and the corner boundaries thereon established, the process of surveying and marking the exterior line of townships north and south of the Base, and east and west of the Meridian, will be readily comprehended.

The townships of six miles square having been duly surveyed, their corners and boundaries established, are now ready to be subdivided into 36 sections, of one square mile each, containing 640 acres. Commencing at the northeast corner of the township, with section numbered one, thence numbering to the northwest corner, and thence proceeding to the east and west lines of the township alternately, until the southwest corner is reached, the 36 sections are located and numbered in manner of easy comprehension, as will be seen by the following

TOWNSHIP DIAGRAM

6	5	4	3	2	1
7	8	9	10	11	12
18	17	16	15	14	13
19	20	21	22	23	24
30	29	28	27	26	25
31	32	33	34	35	36

The subdivision or survey of the township commences with the southeast corner section, or section 36, thence proceeding to section 1 in the northeast corner of the township; thence returning to section 35, and proceeding north to section 2, and so on till the township is completed, all fractions, arising from the convergence of Meridian lines, or other causes, being thrown upon the tiers of sections on the north and west sides of the township.

The Governmental surveys do not usually subdivide sections; but this is done by County surveyors, under the law of their respective States. Sales are made by the Government, as the purchaser may desire, of sections, quarter sections, half-quarter sections, or quarter-quarter sections, the latter subdivision to contain 40 acres.

The public surveys are conducted under the direction of the principal Clerk of Surveys, controlled by the Commissioner of the General Land Office, and under the immediate superintendence of fifteen Surveyors-General, in their respective districts, into which the public lands are divided. These Surveyors-General enter into contracts with professional surveyors, whom they commission as their deputies, describing the particular field work to be executed, the time within which it is to be completed, and the compensation per lineal mile for the work to be done. The report of the deputy is made under oath to the Surveyor-General, who verifies its correctness, files it in his office, and transmits a copy to the General Land Office.

Disposal of Public Lands.—The minimum price fixed by the ordinance of the Congress of the Confederation, in 1785, was one dollar per acre. In 1792 the price was advanced to two dollars per acre, and the lands were sold to the settlers upon credit. By act of April 24, 1820, it was again reduced to one dollar and twenty-five cents per acre, at which it remains to the present time. The exceptions are certain mineral lands, and certain tracts designated as Railroad Lands, being lands adjoining Railroad Land grants, and which are advanced to the double minimum price, or two dollars and fifty cents per acre.

Pre-emption.—By act of March 3, 1807, it was made unlawful for any person to take possession of, make settlements upon, or survey any portion of the public lands, until duly authorized by law; offenders being subjected to forcible ejection and loss of all their improvements. Settlers upon public lands, prior to the passage of the act, were, however, permitted, on application made prior to January 1, 1808, to remain as tenants-at-will upon tracts not exceeding 320 acres, on such terms and conditions as should prevent waste or damage to the land, and secure its peaceable surrender at the demand of the Government, or to any purchaser under the law; all such applicants being required to sign a declaration repudiating all claim to the occupancy of the premises, except the indulgence of the Government. Inasmuch as such tenants-at-will might become purchasers when the lands were offered for sale, this privilege may be regarded as the germ of the pre-emption privilege subsequently granted.

This policy of ejection of trespassers was found to be impracticable. The great western movement of our people had already commenced, and the facilities for evading the execution of the law presented resistless temptations to unlawful settlement. The number of trespassers soon became formidable, requiring a powerful and expensive effort for their ejection. Instead of rigorously enforcing the provisions of the act of 1807, Congress avoided the difficulty. By acts of May 29, 1830, January 23, 1832, July 14, 1832, June 19, 1834, July 2, 1836, June 22, 1838, and June 1, 1840, provisions were made for healing an immense number of breaches of the law, by granting pre-emption to settlers, regardless of restrictions. The necessities which called forth these retrospective statutes became so numerous and pressing as to raise the question of the soundness of the restrictive policy.

By act of September 4, 1841, this policy was finally repudiated, and settlement prior to purchase was no longer regarded as a trespass. By this statute, and the subsequent act of March 3, 1843, pre-emption was engrafted upon the public land system as a permanent feature; yet restricted to surveyed lands. By act of March 3, 1853, this privilege was extended in California to unsurveyed lands. By act of July 17, 1854, the same extension was made in Oregon and Washington; by act of July 22, 1854, in Kansas and Nebraska, and by the statute of August 4, 1854, to Minnesota. The act of June 2, 1862, has been authoritatively construed as extending pre-emption to unsurveyed lands throughout the public domain. Thus, by these slow and progressive steps, the Government arrived at this most wise and beneficent policy.

The Department has prescribed rules for the location of lands under the pre-emption law as follows:

Any person seeking the benefits of pre-emption, under the laws now in force, must be the head of a family, a widow, or a single man over twenty-one years of age, a citizen of the United States, or must have filed a declaration of intention to become such, and not the owner of 320 acres of land within the United States, and must be a person who has not quit or abandoned his or her land in the same State or Territory, to reside upon the public lands. Actual settlement upon the tract claimed, for the exclusive use and benefit of the pre-emptor, and not for purposes of sale and speculation, must be shown, under the rules and regulations of the Department, to the satisfaction of the Register and Receiver. Upon these simple requisites entry may be made to the extent of one quarter section, or other compact body, not exceeding 160 acres, upon any of the public lands of the United States, to which the Indian title has been extinguished, except in the States of Alabama, Mississippi, Louisiana, Arkansas and Florida, in which, by special act of Congress of June 2, 1866, the public lands are brought exclusively under the provisions of the Homestead Act.

To secure these privileges the settler must comply with the provisions of law as expressed in the acts of Congress, which are substantially as follows:

Upon offered lands, which designation, for the purposes of the statute, is held to cover all lands which have once been formally offered at public sale, even though afterward temporarily withdrawn, he must file with the Register of the proper Land Office his written declaratory statement, describing the tract, and giving the time of settlement. This filing must be made within thirty days after settlement, and within twelve months from such date of settlement he must present proof of cultivation, and make payment for the land so described. Upon unoffered lands the filing must be made within three months from the date of settlement, and within thirty months from such prescribed date of filing, or thirty-three months after settlement, the required proof and payment must be made. When the settlement is upon unsurveyed lands, of course no filing can be made, describing it by legal subdivisions, till after survey, and within three months after the filing of the township plat in the district land office, the settler must file his declaratory statement, and, within thirty-three months from the filing of the township plat, proof and payment are required.

Forfeiture of the land claimed is incurred by failure to comply with either of the respective conditions named above. If, however, a party has a legal settlement, and actually files his declaratory statement before the inception of any adverse right, he is held to be entitled to a preference over a subsequent settler, though he may have neglected to file within the precise period named in the statute.

The results of the beneficent policy of the Government, in the enactment of the pre-emption law, are seen in numerous States and Territories occupied by multitudes of small tract owners where otherwise might now be found great land proprietors. To the energetic and industrious man, without means, it has opened avenues unnumbered to independence and wealth. It has developed as the ruling class of the population a self-reliant yeomanry, the true popular element of a democratic republic. It has broadened the base of our political system by diffusing the proprietary interest in the soil; enlarging the number who have permanent stake in the preservation of our institutions. Thousands of the poor have thus been elevated from the lower strata of society to the high and ennobling position of an owner of the soil, through the agency of the pre-emption system.

Its great importance, however, was in paving the way to a more liberal and beneficent policy in the disposition of the public lands, under what has been appropriately termed

The Homestead System.—The first Homestead Law was enacted May 20, 1862. Subsequent acts bear date March 21, 1864, and June 21, 1866. Under the original act a person entitled to a pre-emption may settle upon a tract not otherwise appropriated, and not exceeding 160 acres minimum, or 80 acres of double minimum lands, and by continued occupying and cultivation for five years, may perfect his title by making proper proof of having complied with the conditions prescribed in the law, and by paying a small amount of fees to defray the expense of local administration. By act of June 21, 1866, the public lands in Alabama, Mississippi, Louisiana, Arkansas and Florida are subject to disposal only under the provisions of the Homestead Law.

The object of the pre-emption and homestead statute is to secure the development of the public lands by actual and permanent settlement thereon, and cultivation, as a means of increasing the national wealth and resources. The general practice of the Department has been to require claimants

under these statutes to show actual and continuous personal residence upon the land, from the inception of the claim to its consummation, with such extent of improvements and of actual cultivation as will clearly identify the claimant with the premises as a permanent *bona fide* settler.

The amendatory act of March 21, 1864, relaxes the requirements of personal attendance at the district office to persons in the military service, when the party's family, or some member of it, is residing on the land that it is desired to enter, and upon which a *bona fide* improvement and cultivation had been made. In such cases the said act of 1864 allows the beneficiary to make the affidavit before the officer commanding in the branch of service in which he may be engaged, and the same may be filed by the wife or other representative of the absentee with the register, together with the homestead application. This claim in that case will become effective from the date of filing, provided the required fee and commission accompany the same; but immediately upon his discharge he must enter upon the land and make it his *bona fide* home, as required by the original act of May 20, 1862. These provisions were applicable only to the soldiers of the Rebellion, and are here recorded only as a part of the history of the homestead system.

The 25th section of the act of July 15, 1870, so far modified the original Homestead Act as to allow officers, soldiers and sailors, who have served in the army or navy of the United States for ninety days, and remained loyal to the Government, to enter 160 acres instead of 80 acres of double minimum lands, or lands held at two dollars and fifty cents per acre. In all other respects the requirements of the original and amendatory acts remain in force, actual settlement and cultivation being in no case dispensed with. Congress has also enacted that any alien, of the age of twenty-one years and upward, who has entered or shall enlist in the armies of the United States, and be honorably discharged therefrom, shall not be required to make any declaration of intention to become a citizen of the United States, and may, upon his petition, and on proof of honorable military service, be admitted to full citizenship, after not less than one year's residence in the United States, and shall thereupon be entitled to all the benefits of the homestead laws.

For homestead entries on surveyed lands in Michigan, Wisconsin, Iowa, Missouri, Minnesota, Kansas, Nebraska, Dakota, Alabama, Mississippi, Louisiana, Arkansas and Florida, fees are to be paid according to the following:

Acres	Price per Acre.	Commissions When entry is made.	Commissions When certificate issues.	Fees. When entry is made	Total fees and commissions.
160	$1 25	$4 00	$4 00	$10 00	$18 00
80	1 25	2 00	2 00	5 00	9 00
40	1 25	1 00	1 00	5 00	7 00
80	2 50	4 00	4 00	10 00	18 00
40	2 50	2 00	2 00	5 00	9 00

These rates also apply to Ohio, Indiana and Illinois, where, however, very few isolated tracts of public land remain undisposed of

On surveyed lands in California, Nevada, Oregon, Colorado, New Mexico and Washington, and in Virginia, Idaho, Utah, Wyoming and Montana, the commissions and fees are to be paid according to the following:

Acres	Price per Acre.	Commissions When entry is made.	Commissions When certificate issues.	Fees. When entry is made.	Total fees and commissions.
160	$1 25	$6 00	$6 00	$10 00	$22 00
80	1 25	3 00	3 00	5 00	11 00
40	1 25	1 50	1 50	5 00	8 00
80	2 50	6 00	6 00	10 00	22 00
40	2 50	3 00	3 00	5 00	11 00

Upon payment of the fee and commissions, in accordance with the accompanying tables, the receiver will issue his receipt therefor, and furnish a duplicate to the claimant. The matter will then be entered on their records and reported to the general land office.

An inceptive right is vested in the settler by such proceedings, and upon faithful observance of the law in regard to settlement and cultivation for the continuous term of five years, and at the expiration of that time, or within two years thereafter, upon proper proof to the satisfaction of the land officers, and payment to the receiver, the register will issue his certificate, and make proper returns to the general land office as the basis of a patent or complete title for the homestead.

In making final proof, it is indispensable, under the statute, that the homestead party shall appear in person at the district land office, and there make the affidavit required of him by law in support of his claim. When from physical disability, distance, or other good cause, the witnesses of said party cannot attend in person at the district office, their testimony in support of the claim may be taken where they reside, before an officer authorized by law to administer oaths.

When a homestead settler dies before the consummation of his claim, the widow, or in case of her death the heirs, may continue the settlement and cultivation, and obtain title upon requisite proof at the proper time. If the widow proves up, the title passes to her; if she dies before proving up, and the heirs make the proof, the title will vest in them. When both parents die leaving infant heirs, the homesteads may be sold for cash for the benefit of such heirs, and the purchaser will receive title from the United States.

The sale of a homestead claim by the settler to another party before completion of title is not recognized by the Government, and not only vests no title or equities in the purchaser, but would be *prima facie* evidence of abandonment, and might give cause for the cancellation of the claim.

A party may relinquish his claim, but only to the Government; and in such cases should surrender his duplicate receipt, with a relinquishment endorsed thereon; or, if the duplicate has been lost, that fact should be stated in the relinquishment, duly signed and acknowledged.

As the law allows but one homestead privilege, a settler relinquishing or abandoning his claim cannot thereafter make a second entry. But in case of the illegality of his entry, he may make a second claim.

If the homestead settler does not wish to remain five years on his tract, the law permits him to pay for it with cash or warrants, upon making proof of settlement and cultivation for a period not less than six months from the date of entry to the time of payment.

Adjoining Farm Homesteads.—There is another class of homesteads, designated as "Adjoining Farm Homesteads." In these cases the law allows an applicant owning and residing on an original farm to enter other land lying contiguous thereto, which shall not, with such farm, exceed in the aggregate 160 acres. Thus, for example, a party owning and occupying 80 acres may enter 80 acres additional of $1.25 land, or 40 acres of $2.50 land.

In entries of "adjoining farms," the settler must describe in his affidavit the tract he owns and is settled upon as his original farm. Actual residence on the tract entered as an adjoining farm is not required, but *bona fide* improvement and cultivation of it must be shown for the period required by the statute.

Homestead and pre-emption privileges are conceded to Indians who have voluntarily dissolved all connection with their tribes, and no longer share in the annuities, or in exemptions, or in privileges secured to them by acts of Congress or treaty stipulations.

Lands obtained under the homestead laws are exempted from liability for debts contracted prior to the issuing of patents therefor.

Under an act of Congress of June 8, 1872, the homestead law was amended in favor of parties who served in the army or navy of the United States for ninety days or more during the late war, conceding to this meritorious class, on account of their services to the country, certain rights not allowed in the general law, in taking homesteads on the public lands.

It allows every soldier and officer of the army, and every seaman, marine and officer of the navy, who served for the period named, and who was honorably discharged and has remained loyal to the Government, to enter, under the provisions of the homestead law, 160 acres of the public land, including the double minimum land.

The time of service, or the whole term of enlistment, when discharged on account of wounds or disability, shall be deducted from the time heretofore required to perfect title: *Provided, however*, that the person shall reside upon, improve and cultivate his homestead for a period of at least one year after he shall commence his improvements. It is required that the period, whether one year or more, of actual service, improvement and cultivation that may be found necessary to perfect each case of entry under this act, shall follow immediately upon the date of entry.

Any person entitled to the benefit of this act, and who has heretofore made a homestead entry of less than 160 acres, may enter under this act an additional quantity of land contiguous to the first entry, which shall make in the aggregate 160 acres.

The widow, if unmarried, or in case of her death or marriage, the minor orphan children of a person who would be entitled to the benefits of this act, may enter lands, under its provisions, with the additional privilege accorded, that if the person died during his term of enlistment the widow or minor children shall have the benefit of the whole term of enlistment.

Any person entitled to the benefit of this act may file his claim for a tract of land through an agent, and shall have six months thereafter within which to make his entry and commence his settlement and improvement upon the land.

By the act of June 18, 1874, Congress provided for the relief of settlers, in specified sections of Minnesota and Iowa, whose crops were destroyed or seriously injured by the ravages of grasshoppers in 1873 and 1874, allowing them leave of absence for any period between June 18 and May 1, 1875.

In adjudicating cases under the soldiers' and sailors' homestead act of June 8, 1872, it is held that April 15, 1861, the date of the President's proclamation calling out the militia for suppressing the rebellion, is to be taken as the beginning, and August 20, 1866, the date of the President's proclamation declaring the war at an end in the State of Texas, as the end of the rebellion.

Of the cases adjudicated, and principles settled under this act, the following are noted as of general application:

An unmarried woman, having entered land under the homestead law, and subsequently married, does not by her marriage forfeit her rights under such entry, provided she should fulfill the requirements of the statue regarding settlement and cultivation of the entered tract.

Where a woman, abandoned by her husband, and acting as the head of the family, entered a homestead, and the husband subsequently returned to his wife and family, it was held that the wife, notwithstanding the return of her husband, was entitled to perfect her entry by making the required settlement and cultivation of the land, and to obtain a patent therefor, on making final proof after the expiration of five years from the date of entry.

In case of a person who had made a homestead entry, and who became insane, and the proper evidence of his insanity, and of his being confined in an insane asylum, having been forwarded to the Department, it was decided that no application to contest his entry, on the ground of abandonment, would be allowed during the continuance of his insanity; also, that the settlement and cultivation of the land, and the proof thereof required by law, may in such case be made by the guardian of the insane person.

The wisdom of the policy of the Government in these enactments of the Homestead Law, with the liberal and generous provisions offered to the settlers under every conceivable circumstance, is exemplified in the extent to which the people have availed themselves of these benefits.

Timber Culture.—The Timber Culture Act was enacted March 3, 1873, and amended March 13, 1874, having for its object the promotion of the growth of timber on the western prairies, by providing a method of acquiring title to public lands on condition that timber should be grown thereon to an extent and for a period of time therein specified.

Its provisions are: That any person who is the head of a family, or who has arrived at the age of twenty-one years, and is a citizen of the United States, or who shall have filed his declaration of intention to become such, as required by the naturalization laws of the United States, who shall plant, protect, and keep in a healthy growing condition for eight years, 40 acres of timber, the trees thereon not being more than 12 feet apart each way, on any quarter section of any public lands of the United States, or 20 acres on any legal subdivision of 80 acres, or 10 acres on any legal subdivision of 40 acres, or one-fourth of any fractional subdivision of land less than 40 acres, shall be entitled to a patent for the whole said quarter section, or of such legal subdivision of 80 or 40 acres, or fractional subdivision of less than 40 acres, as the case may be, at the expiration of said eight years, on making proof of such fact by not less than two credible witnesses; *Provided*, that not more than one quarter of any section shall be thus granted, and that no person shall make more than one entry under the provisions of this act, unless fractional subdivisions of less than 40 acres are entered, which in the aggregate shall not exceed one quarter section.

Application is to be made to the register of the land district, with a fee of $10, and he or she is then permitted to enter the land specified. The party making an entry of a quarter section will be required to break 10 acres of land the first year, 10 acres the second year, and 20 acres the third year after the date of entry; and to plant 10 acres of timber the second year, 10 acres the third year, and 20 acres the fourth year after date of entry. The same proportions are required in tracts of lesser size.

It is further provided that any person, who has entered land under the Homestead Act, may, at any time after his third year of residence thereon, make proof that, in addition to the settlement and improvements required under the Homestead Act, he has had under cultivation for two years one acre of timber, the trees thereon not being more than 12 feet apart each way, and in a good, thrifty condition, for each and every 16 acres of said homestead, and shall thereupon receive his patent for said homestead.

No land acquired under the provisions of this act shall in any event become liable to the satisfaction of any debt or debts contracted prior to the issuing of certificate therefor.

An estimate of the importance and value of these provisions may be formed from the fact that within the first year from the passage of the act the timber culture entries amounted to 803,945 acres, requiring the planting and cultivation of more than 200,000 acres of timber.

Educational Land Bounty.—The far-seeing policy and comprehensive wisdom of the Fathers of the Republic are nowhere better exemplified than in the liberal provisions made for popular education. Under the ordinance of March 20, 1785, section 16 of every township was set apart for the endowment of public schools, a policy which at once met with enthusiastic applause from the public, and was tacitly incorporated into the American system as one of its organic ideas. This beneficent act continued in force, furnishing a nucleus for the educational system in all the new States, until the 14th of February, 1859, the date of the admission of Oregon into the Union, when, in the case of this new State, and all others since admitted, this grant was doubled by the addition of the 36th section in every township. These grants already amount to more than 70,000,000 of acres, covering a larger surface than the united areas of England, Wales, Scotland and Ireland.

Agricultural and College Grants.—By act of July 2, 1862, our educational endowment system was enlarged by the donation to each State of 30,000 acres of public land for each Senator and Representative to which it was entitled under the apportionment of 1860, for the support of colleges for the cultivation of agricultural and mechanical science and art. The results of this liberal donation are seen in numerous schools and colleges created under it in the several States, the most noteworthy example of which is the Cornell University, at Ithaca, New York.

Railroad Aid Grants.—The Government has also aided, in the several States and Territories, by liberal concessions of the public lands, in the construction of 12,766 miles of railroad, thus opening up otherwise inaccessible regions of country to the immigrant, and binding together with links of iron the widely-separated sections of the nation.

Add to these the numerous grants in aid of internal improvements, the bounties to soldiers, and the more than 60,000,000 of acres of swamp and overflowed lands granted to the States, and an estimate may be formed of the genius of a Government originating with the people, and having no other end and aim but their welfare and prosperity.

1888 ATLAS OF MERCER COUNTY, OHIO

This index for the 1888 Atlas of Mercer County, Ohio, has been prepared by volunteer members of the Mercer County Chapter of the Ohio Genealogical Society.

TO USE THE INDEX: The number following the given name denotes the page number in the 1888 Atlas. The number preceded by a # sign represents a Township Section number. Charley Reserve, Cresent Reserve, Black Loon Reserve, Anthony Shane Reserve, and Louis Godfrey reserve are Indian Reservations. Some townships have duplicate section numbers. These have been identified using N for the northern township, etc.

EXAMPLE: CROW, S. R., 21, #15, #23.

The above means that S. R. Crow can be found on page 21 in Sections 15 and 23.
