# Research Request Form

## NOTE TO RESEARCHERS:

The Ohio Historical Society accepts requests submitted by members of the public who cannot visit the Society's Archives/ Library. OHS staff handle submissions as either copy requests or research requests. A copy request gives a specific citation for information in an identified source. A research request asks for information about a specified event in a specific source during an estimated time frame (limited to a 10-year span).

## RESEARCH FEE AND SERVICES:

The base fee is **\$25.00** for searching one name in any one specific type of indexed record or record group during a time period that covers up to a 10-year span. If the request is for a public record, we need to know the Ohio county or city where the event occurred. The base fee includes up to 4 pages of copies plus the cost of a first class postage stamp. The charge for each additional page is 25 cents plus postage in excess of the cost of a first class stamp. Research requests must be **PREPAID** with check or money order payable to the Ohio Historical Society. **DO NOT SEND CASH.**

An example of a public record research request is: *Please send me the **Franklin County, Ohio, will record of John Doe who died sometime between 1880 and 1889.***

An example of an audio/visual research request is: *Please send me a picture of **Union Station in Columbus during the 1880s.***

An example of a book research request for family history is: *Please look through your **Darke County History Book Collection for the tombstone inscription information for John Doe who died in 1868.***

An example of a book research request for a business history is: *Please look through your **Columbus books for information about the M. C. Lilley & Company, which made ornamental swords around 1870.***

**DO NOT** send requests asking for "**all**" information available about a subject, family name, or specific person. Requests for "anything" or "everything" are too broad for our staff to handle.
