Introduction and Description of System of Survey

IN presenting to the public our new Atlas of Wood County, it is altogether fitting and proper that we should express a few words of introduction with regard to the publication of a work, which, we trust, will be the pride of every home-loving and patriotic citizen of this, one of the most fertile and progressive counties of the State of Ohio.

If not all, at least those best acquainted with us and our efforts, will bear us out in the statement, that seemingly nothing on the part of the publishers has been neglected which could secure for the work the utmost comprehensiveness, thoroughness and accuracy of detail.

Few have any adequate idea of the perplexities encountered, or the difficulties attending the preparation of such work; and while neither time nor expense has been spared to render this volume trustworthy, it is perhaps too much to anticipate that it will prove to be without flaw or imperfection.

The first and most important feature of our work the maps we trust will be found reliable, and as perfect as the combined efforts of draftsman, photographer, engraver and printer can possibly make them.

In this publication will be found many new features which increase its value as well as render it more attractive than other works of a similar nature heretofore offered.

An Atlas should show plainly, and at a glance, the exact location of a tract of land in Section, Township and Range. In this work each section is numbered and its boundary shown by heavy black lines, where no roads interfere. On the margin of the maps are given the numbers of the Township and Range.

The colored portion surrounding the Villages on the Township maps indicates special school districts, and are called at the present time, after the name of the corporation or village which they surround, thus showing three distinct taxing districts, viz.: corporation, special school district and township.

In the corporation and village plats, the small figures show the dimensions of lots, width of streets, etc.

The U. S. Rectangular Survey

The lands of Wood County are divided according to the system of Public Land Surveys inaugurated in 1802 by Colonel James Mansfield, then surveyor of the Northwest Territory. This plan with slight modifications is still in use. Its general features are as follows:

The whole public domain is divided into parts called land districts, and a N. and S. line run through the district called the "Principal Meridian," and from some point on this meridian an E. and W. line is run which also extends through the district, called the "Base Line."

The Principal Meridian is a true meridian, and the Base Line a true parallel of latitude. The first Principal Meridian west of Washington is the west boundary of Ohio, which was run north from the mouth of the Great Miami River. It is $84^{\circ} 51'$ longitude west from Greenwich. This is the Meridian for the survey of Northwest Ohio. The Base Line is the south line of Seneca County.

Standard Parallels or Correction Lines also conforming to Parallels of Latitude, are established at intervals of 24 miles north and south of the Base Line, and guide or correction meridians conforming to true meridians, are started at intervals of 24 miles along the standard parallels and run due north to the intersection of the next standard parallel. The rectangles thus formed by the guide meridians and standard parallels are subdivided into 16 townships, each one containing 36 square miles or sections into which the territory is further divided by meridians and parallels run at every mile. Each line of

the 36 square miles or townships E. and W. is numbered either N. or S. from the Base Line, and the territory included is termed a congressional town, and each line of them N. and S. is termed a Range and is designated, Range 1, 2, etc., E. or W. from the Meridian.

It will be seen from the above diagram that the 36 sections of each township are numbered consecutively, beginning with Section 1 in the N. E. corner and thence proceeding along the N. end of the township to Section 6 in the N. W. corner; Section 7 begins the next tier of Sections S., the numbering running E. to 12, and then beginning the third tier with 13, and running W. to 18, and so on, ending with No. 36 in the S. E. corner of the township. Fractional sections of irregular shapes are admitted on the borders of lakes, rivers, etc.

The River Tracts in the U. S. Reserve of 12 miles square, and the Road Tracts along the Maumee and Western Reserve road are one-quarter-mile wide and run to section or half section lines.

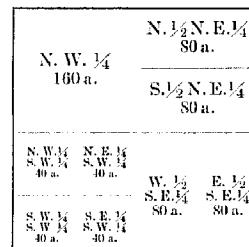

The sections are surveyed very much as were the townships, the east range of the township and south township line being used as basis. Commencing one mile west of the southeast corner of the township, the surveyor runs north a mile, then east a mile to the east range line and connects back to the northwest corner of the section. The remaining sections on the east tier, up to the north line of the township, are then surveyed off, placing the last section corner where that north town line is intersected by his north and south line, whether this point is east or west of the section corner previously established in the township survey. The distance between the two corners, if any, is called the "jog" or "offset" and is recorded.

The government subdivisions of the sections by which the lands are sold, are "quarter" sections or 160 acres; "half quarter" sections or 80 acres, and "quarter-quarter" sections or 40 acres. The section is divided into quarters by running a straight line north and south, and one east and west between the north and south, and east and west quarter posts respectively of the section. The quarter sections are "halved" by running a straight line north and south or east and west (whichever way it is desired to divide it) from points half way by measurement of opposite sides. The quarter sections are similarly divided and other smaller subdivisions can be made according to the same method.

It will be seen from the above diagram, that if a section is a square and contains the exact number of acres, this method would sub-divide it into tracts containing equal areas; but it very seldom occurs that a section is a perfect square or contains the exact number of acres. Hence it occurs that the sub-divisions most often will differ more or less in quantity. Nevertheless, the government has established this as a method by which the sub-divisions shall be made, and making the eight corners, on the exterior lines of the section, "the corners" however incorrect they may have been established.

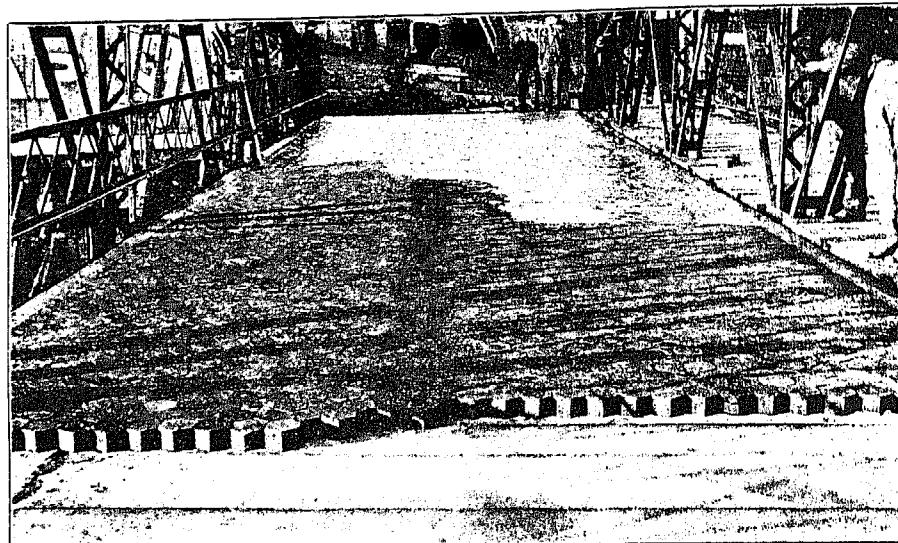

On account of the unavoidable errors, no township will divide into thirty-six exact sections. The apparent excess, or deficiency of land in the township is thrown upon the extreme north and west sections, that is upon the last quarter mile. The other, or interior sections, are intended to contain 640 acres, but they generally contain more or less than that number. The government, therefore, to cover these variations, sells all its lands on the condition that each of the sub-divisions of the section contains so many acres "be the same more or less," so that a conveyance of the "northeast quarter of section so-and-so, containing 160 acres of land" covers all the land in that division, even if it should be 165 acres.

Land may be conveyed by metes and bounds, or by sectional sub-divisions; but conveyancers make many errors by uniting the two methods, especially when they assume that the government sub-divisions measure out exactly.

WARD 4

BLOOM TOWNSHIP

ESTABLISHED March 2, 1835, and embraces congressional Township No. 3 N., R. 11 E. Exterior lines surveyed in 1819 by Alex and Samuel Holmes and interior lines of sections in 1821 by S. Bourne.

First election was held in April, 1836, at the residence of Frederick Frankfather near the center of the township.

Unincorporated Villages

Blake or Trombley was surveyed and platted by A. C. Barbour for Joseph Trapnell, proprietor. Survey recorded January 11th, 1886.

Eagleville, laid out by S. H. Bell, February 18, 1852, for James M. Brunson. Plat recorded May 12, 1852.

Welker or Galatea surveyed by Edwin Phifer, in October, 1886, for Henry Byal and survey recorded October 19, 1886.

Incorporated Villages

The first survey of Bloomdale was made by D. Donaldson, July 1874, for Jonathan Myers and the plat recorded October 6, 1874. The Village was incorporated December 7, 1887, and organized in April, 1888.

Bairdstown was platted for Josiah Baird and the plat recorded in October, 1874. The Village was incorporated August 16, 1881, on petition filed June 8, 1881.

Cygnets was surveyed on the Northeast corner of the West Half of the Northwest Quarter of Section 7, Town 3, Range 11 East, for Ephraim and Sarah J. Shinabarger in February 1883, by D. D. Ames and named Pleasant View.

Jerry City lies partly in Bloom and partly in Portage Townships and was surveyed November 6, 1861, by J. Hastings, for John Smith. It was incorporated September 8, 1875, on a petition presented June 8, 1875.

CENTER TOWNSHIP

CENTER TOWNSHIP was originally six miles square. Exterior lines surveyed by Samuel Holmes, Deputy U. S. Surveyor, in 1819; subdivisinal lines by S. Bourne in 1821. The designation in the survey is Town 5 North, Range 11 East. The County Commissioners granted the request for a township organization, under the name of Center in March, 1835. At the time of this action Center was a part of Portage and had been since June, 1833, prior to which time it had been a part of Middleton since that township was cut off from Perrysburg. When, in 1846 Webster was created, six sections, 1, 2, 11, 12, 14 and 15 were set off to that township. In 1844, the south half of Section 31, Middleton, was given to Center.

Bowling Green was first platted by D. H. Cole in February 1835 for Henry Walker and Robert Barr and survey recorded March 6th, 1835. July 23, 1855, Bowling Green was incorporated.

FREEDOM TOWNSHIP

THE exterior lines were surveyed in 1819 and the section lines in 1821. The first regular road through the township was the McCutcheonville turnpike, established by the Act of February 15, 1831. It runs from Perrysburg southeast through New Rochester to the County's southeast corner; thence to Bucyrus.

Unincorporated Villages

New Rochester, the first village of Freedom, was surveyed on the Northwest quarter of Section 29, by H. Steel in May, 1835.

Woodside was surveyed by D. D. Ames, in April, 1883, for Seymour W. Owen and survey recorded June 27, 1884.

Incorporated Villages

Pemberville was surveyed by S. H. Bell in May, 1854, for James Pember. The original was a part of the Northeast quarter of Section 10. The place was named after James Pember.

PEMBERVILLE

GRAND RAPIDS TOWNSHIP

GRAND RAPIDS was organized September 25, 1888, and until this time was a part of Weston. Though the first settlements were made near the head of the Rapids (where the surveys were made in 1819 and 1821), the township of Weston organized there.

In 1829, the residents in the neighborhood of the present site of Grand Rapids Village petitioned the Commissioners to authorize a new township. On June 14, 1830, the petition was granted, and Ottawa Township was formed out of the territory in Range 9, South of the Maumee, including the islands adjacent. On December 6, 1830, the name was changed to "Weston."

Incorporated Village

Grand Rapids was originally called Gilead and was established in 1831, but the survey was not made until June, 1833, by Ambrose Rice on the Northeast quarter of Section 7, Town 5, Range 9 for John Graham. Survey recorded June 4th, 1883. The petition for incorporation was presented to the Commissioners on December 5th, 1855.

HENRY TOWNSHIP

THE survey of the exterior lines was made in 1819 by Samuel and Alex Holmes, and of the subdivisional lines by Worthington, in 1821.
The township was established December 3, 1836.

Unincorporated Villages

Denver was surveyed by D. Donaldson April 3, 1875, for Geo. D. Chase and plat recorded June 30, 1875.

Hammansburg was surveyed by W. H. Wood for Wm. Hammond and Jacob Ackerman February 28, 1873 and survey recorded May 21, 1873.

Incorporated Village

The incorporated Village of North Baltimore was formerly called New Baltimore and the first plat recorded July 20, 1874, under that name. The petition for incorporation was presented December 10, 1875, and was granted by the Commissioners, Feb. 7, 1876.

JACKSON TOWNSHIP

THE exterior lines of this division of the County were surveyed in 1819, and the section lines in 1821. The township was established June 1, 1840.

Hoytville was surveyed by W. H. Wood in 1873, for G. B. Mills and William Hoyt. The petition to incorporate was presented September 6, 1886, signed by fifty-six residents. Some days later a remonstrance was filed followed by a second remonstrance and a second petition. On December 6, that year, the commissioners granted the second petition.

LAKE TOWNSHIP

THIS township was established June 3, 1844, and its boundaries made the same as those of Congressional Township, 7 North, Range 12, East. Prior to December 3, 1838, the township was a part of Perrysburg. From that date, until its organization in 1845, it was part of Troy Township. The survey of the exterior lines was made in 1830, by Alex Holmes, and of the section lines in 1833, by Ambrose Rice.

Unincorporated Villages

Latcha was surveyed by D. Donaldson for J. R. Tracy and Luke Marsh, in July 1876.
Walbridge was surveyed by George Kirk June, 1874, for Emeretta Warner and Harriett Warner and the survey recorded July 10, 1874.

Millbury was surveyed by R. B. Willison and the plat recorded April 14, 1864. A petition for its incorporation was presented June 1, 1874 and the enabling order issued September 4, 1874.

MIDDLETON TOWNSHIP

THE survey of the exterior lines of this township was made by J. T. Worthington in the west part, and by Holmes Brothers in the east part, in 1819, and the section lines by Worthington and Kellogg in 1821.

This division of the County was established December 3, 1832, within the following described boundaries: Commencing at the river on the line between River Tract No. 55, and Section 16, T. 1, U. S. R., thence East to the line between T. 1 and 4, U. S. R., of twelve miles square; thence to the Southwest corner of T. 4; thence east to the southeast corner of that township; thence south to the southeast corner of T. 5, R. 11; thence west to the southwest corner of T. 5, R. 10; thence north to the Maumee River and along the river to the place of beginning. In June 1839, Sections 13, 14, 15, 22, 23, 24, 25, 26, 27, 34, 35 and 36, of Fraction T. 6, were attached to Perrysburg, while on March 3, 1840, River Tracts 56, 57, 58 and 59, with the S. E. $\frac{1}{4}$ of section 16 in original survey of U. S. R. and Fr. Sections 16, 17, 20 and 21 of Washington were attached to Middleton Township, but in June 1841, all this territory except Fr. Sections 17, 20 and 21, was set off to Perrysburg Township. Again in 1844 Middleton lost the south half of Section 36, T. 6 R. 10, east off to Plain, and the South half of Section 31, T. 6, R. 11, set off to Center Township.

Unincorporated Villages.

Miltonville was surveyed by H. Davis in August, 1835, for Williams Fowler and G. W. Baird who named it Miltonville after Milton Baird.

Hull Prairie was surveyed for John H. Weller, C. W. Carpenter and Joseph Gardner in October, 1861, and survey recorded February 27, 1862.

Dunbridge was surveyed for Robert Dunn, November 10, 1882, by Ferdinand Wenz.

Dowling on the line between Perrysburg and Middleton Townships was surveyed in November, 1882, by Ferdinand Wenz, for George Shoemaker.

Sugar Ridge was surveyed for Frank and Sarah Meeker in 1882, by Ferdinand Wenz. The village is in Middleton Township.

Incorporated Villages

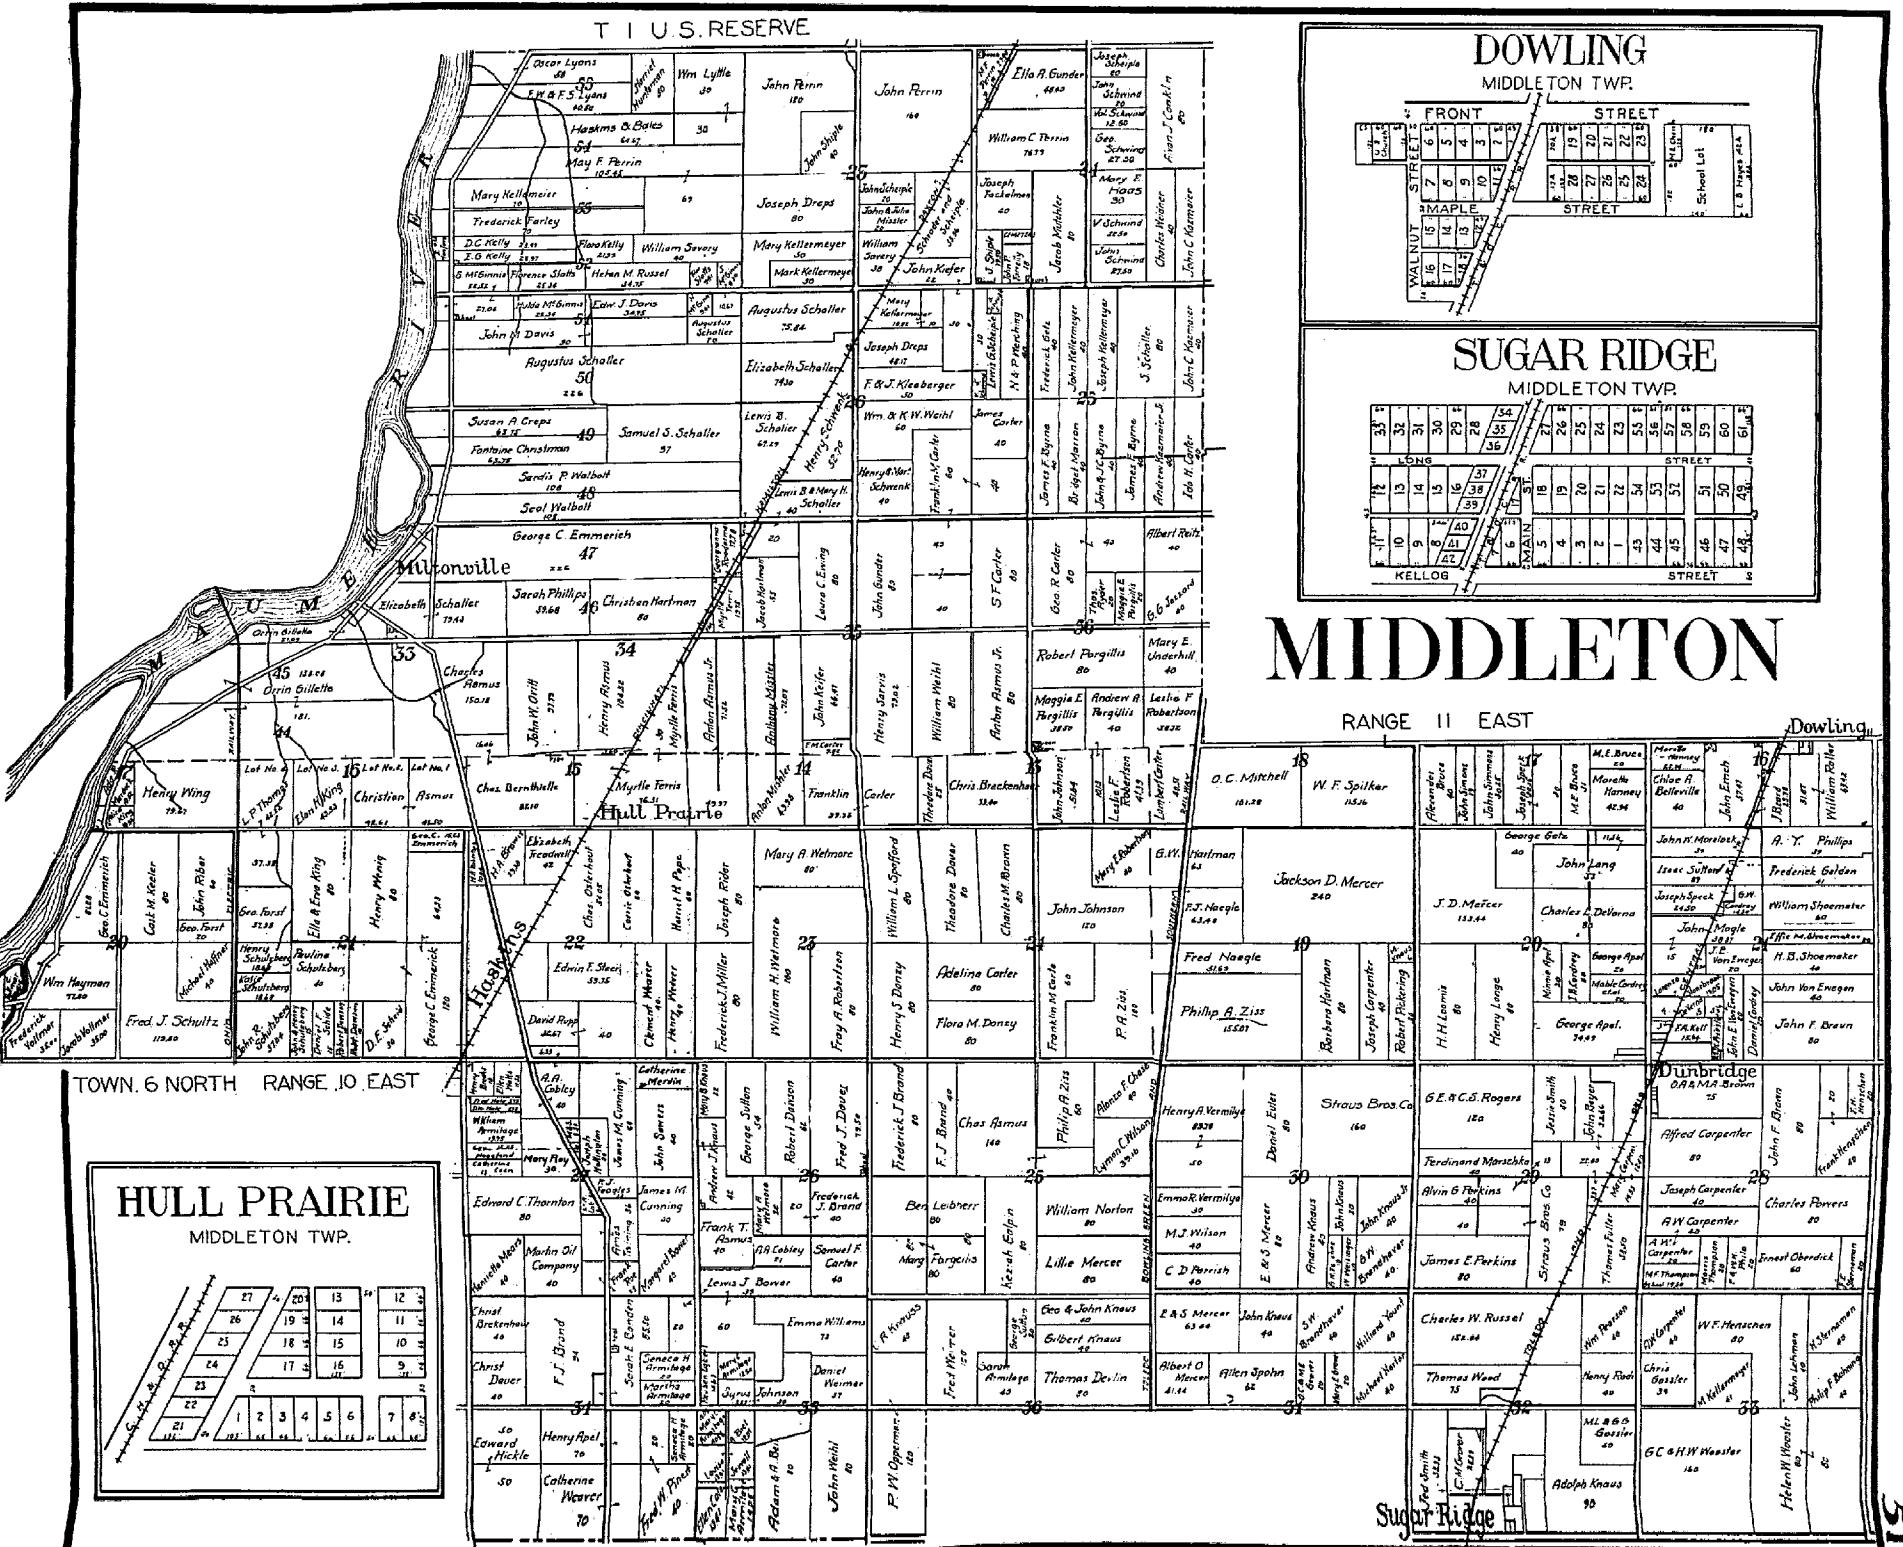

Haskins was surveyed in 1862, by D. D. Ames for William King and incorporated January 1, 1869.

MONTGOMERY TOWNSHIP

THE survey of the exterior lines was made in 1819 and of the sectional lines in 1821 by S. Bourne. The establishment dates back to December 1, 1834 when the territory now known as Montgomery was set apart from Perry and named in honor of that gallant soldier of the Revolution.

Incorporated Villages

Freeport, or Prairie Depot, was surveyed in March, 1836, by Hiram Davis for John Bailey and H. Buchtel. The Petition for incorporation was presented June, 8 1876 and was granted September 7, of that year.

Bradner was surveyed in 1875 for John Bradner and Ross Crocker, of Fostoria and H. G. Caldwell who resided in the vicinity of the Village. Mount Prospect Addition was surveyed by W. H. Wood for J. H. Stephens, Chas. H. Lightner and Jacob Plantz and the plat acknowledged by them February 7, 1786.

Rising Sun was surveyed by W. H. Wood in May 1876 for Luther Winchell, John Mervin and others and was incorporated March 13, 1879.

MONTGOMERY

TOWN. 4 NORTH RANGE 12 EAST

This historical map illustrates the early development of the Bradford area, specifically the Freeport and Rising Sun regions. The map shows a network of roads, including the National Road, and various properties owned by individuals such as Philip Adams, William H. Erchard, James J. Force, T.N. Harkness, George W. Hedge, M.L. & C.S. Hofford, J. Reynolds, John Reynolds, Alexander Coskie, Margaret Reynolds, Nettie Dickens, Frank S. Adams, Hugh H. Reynolds, Tom Sheets, P.R. Cramer, T.C. & C.O. Frazee, Cyrus W. Lenhart, P.W. Groom, C.W. Groom, and many others. Businesses like the Ohio Oil Company, Marland W. Hedge, and Cygnet Savings Bank are also depicted. The map is divided into several townships, with Freeport and Rising Sun being the most prominent. The terrain includes hills and water bodies, and the map provides a detailed look at the early landholdings and infrastructure of the region.

PERRY TOWNSHIP

THE survey of the exterior lines was made by Alex and Samuel Holmes in 1819, and that of the interior lines in 1821 by S. Bourne.

This division of the county as set off from the older township of Portage, March 4, 1833, included Townships 3 and 4 in Range 12 and Township 3, in Range 11, or in municipal language, the townships of Perry, Montgomery and Bloom.

West Millgrove was surveyed in November, 1835, by H. Davis for James and Rachel McCormick on the Southwest $\frac{1}{4}$ of Section 4, Town 3, Range 12. An order to incorporate was made September 4, 1874 and recorded September 30, 1874.

About one mile northeast of West Millgrove is the railroad hamlet called Hatton, which is the shipping point of West Millgrove.

Fostoria now claims a small part of Wood County. Hart's sub-division of part of S. E. $\frac{1}{4}$ of Section 36, Perry Township was surveyed by Homer C. White in April, and May, 1887 for John O. Hart.

WOOD COUNTY

PERRYSBURG TOWNSHIP

THIS township was established May 8, 1823, when the territory of Waynesfield within Wood County was set apart under the new name. The Congressional description is as follows: "Lying south of the channel of the Maumee river, from the west line of the County to the line between the original surveyed Townships, Nos. 1 and 4 in the United States Reserve and thence along the North Channel to the State line."

Perrysburg Village

This Village was surveyed for the United States in 1816, by Joseph Wampler, and was named Perrysburg by Major Spafford, after a suggestion by Joseph Meigs, formerly governor of Ohio, but then filling the office of U. S. Land Commissioner. Jonathan Lime City was surveyed by C. H. Judson, October 28, and 29, 1887 for S. H. Sawyer and Lizzie Scott, and the plat recorded in November, 1887.

PLAIN TOWNSHIP

THE survey of the exterior lines of this township was made in 1819 by Samuel and A. Holmes while that of the section lines was made in 1821 by J. T. Worthington.

The Commissioners of Wood County in session March 3, 1835, set off the following described territory under the name of Plain Township; commencing at the northeast corner of Town 5, Range 10, thence west to the northwest corner of Section 3, south to the southeast corner of Section 9, west to the southwest corner of Section 7, thence to the southeast corner, and north to the place of beginning. On March 3, 1840, Sections 3 and 10 were annexed to Washington Township, but on March 3, 1845, were restored to Plain. The next territorial change was made December 2, 1844, when the south half of Section 36, Town 6, Range 10, was set off from Middleton Township and annexed to Plain.

PORTAGE TOWNSHIP

THE date of survey of this division of the county is about the same as that of Bloom and Liberty and was established December 3, 1832. As established, this township embraced the territory now known as Liberty, Henry, Portage, Bloom, Montgomery and Perry.

Mungen was surveyed by W. H. Wood for Philander McCrory in Section 30, Town 4, Range 11, in May, 1888.

Jerry City is partly in Bloom and partly in Portage Townships and was surveyed November 6, 1871 by J. Hastings for John Smith, proprietor.

Portage on the north branch of the Portage River was surveyed June 28, 1834, by John W. Sargent for Adam Rose. In June 1857 a petition was presented asking that the Village be incorporated and was granted December 7. On December 12, 1857, an amended plat of the Village was placed on record, and the petition for incorporation was granted on the same day.

ROSS TOWNSHIP

THE original survey of the township, outside of the U. S. Reserve, was made by Ambrose Rice in April, 1834, while the territory within the Reserve was surveyed by Elias Grover in 1805.

The act establishing Ross Township passed April 18, 1874. This provided that Fractional Township 8 North, Range 12, East and the part of Township 3 in the U. S. Reserve lying west of and between said Township 8 and the Maumee River, Section 13, the North half of Sections 23 and 24, River Tracts 78, 79, 80, 81, 82, 83, 84, 85 and 86, then included in Perrysburg Township, be set off as a distinct township.

The unincorporated Village of Rossford was surveyed by James Winans in November, 1898, for Edward Ford and survey recorded January 7, 1899.

TROY TOWNSHIP

THIS division of Wood County, was surveyed in 1820 by Charles Roberts, and as established December 1, 1834, embraced Congressional Township No. 6, in Range 12. In the matter of territory the township was left intact until December 8, 1846, when Sections 19, 20, 29, 30, 31 and 32 were attached to the new Township of Webster.

The Village of Stony Ridge was surveyed in May, 1872, for Caleb Bean, on Road-tract 59, and that part on tract 38 for Samuel Shriner, George Kirk being the surveyor. The name taken from the physical character of the locality, is altogether appropriate.

The Village of Lemoyne, as surveyed in February, 1877, for S. Howard, Alfred Dennis, John Webb and U. J. Dennis, shortly after the opening of the railroad, was renamed LeMoyne, now spelled Lemoyne.

The Village of Luckey was surveyed in April, 1881, for Isaac W. Krotzer, by George Kirk.

WASHINGTON

WEBSTER TOWNSHIP

THE survey of the exterior lines of the southern part of this township was made in 1819 by Alexander and Samuel Holmes, and of the interior lines by S. Bourne in 1821. The Northwestern part was surveyed by the Holmes Brothers in 1819 and the interior lines run in 1821 by J. T. Worthington, while Sections 19, 20, 29, 30, 31 and 32 were surveyed in 1820 by Charles Roberts.

This division of Wood County was established December 8, 1846. The territory so named included Sections 13, 14, 15, 22, 23, 24, 25, 26, 27, 34 and 35 in Fractional T. 6, R. 11, formerly attached to Perrysburg; Sections 19, 20, 29, 30, 31 and 32 formerly belonged to Troy; Sections 5, 6, 7, 8, 17 and 18 formerly attached to Freedom and Sections 1, 2, 11, 12, 13, and 14, detached from Center.
