SURVEY OF PUBLIC LANDS.

The public lands consist of those vast tracts of territory that belonged to the U. S. after the Revolution, together with all that was afterward ceded by individual states soon after the formation of the Constitution, with the additions that have since been made by treaty with Indians or by conquest. In 1802, Col. Mansfield, then surveyor of the Northwestern territory, inaugurated a plan for surveying and recording such portions as were offered for sale; which plan, with slight alteration, has continued in use to the present time.

The general features of the plan then adopted, and still in use, are as follows: The entire public domain is first divided into parts called land districts, each of which is put in charge of an officer called a surveyor general, who controls all the surveys in his particular district. In each district a meridian line is run, extending through the entire district, and from some point of this meridian an East and West line is run, which also extends through the district.

These lines are determined astronomically, and, when located, serve as axes to which the subdivisions of the district are referred.

Parallel to the axes, and on each side of them, other lines are run six miles apart, dividing the whole territory into squares, each containing 36 square miles. These squares are called townships.

To take into account the obliquity of the meridians, suitable offsets are made in accordance with an established system.

The townships lying between two consecutive meridians six miles apart constitute a range, and the ranges are numbered from the principal meridians, both East and West. In each range the townships are numbered both North and South from the principal East and West line.

Thus, if a township lies 12 miles East of the principal meridian and 18 miles north of the principal East and West line, it is called township 3 North, range 2 East. Each township is divided by meridians and East and West lines into squares having a mile on each side.

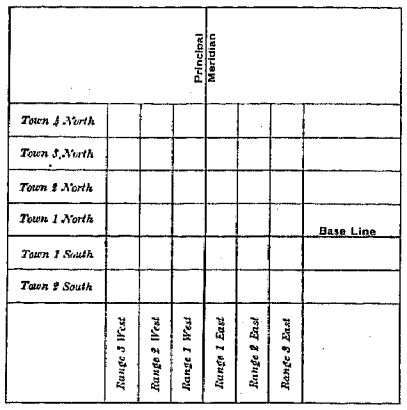

These are called sections, and each contains 640 acres, more or less.

The sections of a township are numbered from the N. E. corner, running along the northern tier of sections to No. 6, thence backward to section No. 12, which lies exactly south of No. 1, and so on alternately, running from right to left and from left to right, to the south-easterly corner, which is No. 36. The four middle sections are numbered respectively 15, 16, 21, 22. In some of the Western States section No. 16 is set apart for school purposes, and is therefore called the school section.

If the land is very valuable, the sections are divided into half sections by meridians, and sometimes into quarter sections by lines running East and West, and then again are divided into eighths by meridians.

To designate one of these subdivisions, we say, for example, that it is the West half of the S. W. quarter of section No. 16, township No. 7 North, range 3 West; and, if necessary, we add the designation of the land district.

The following diagram illustrates the location of townships by number and range:

All fractional parts of sections occur on the North and West sides of townships and on these sides no quarter posts are set.

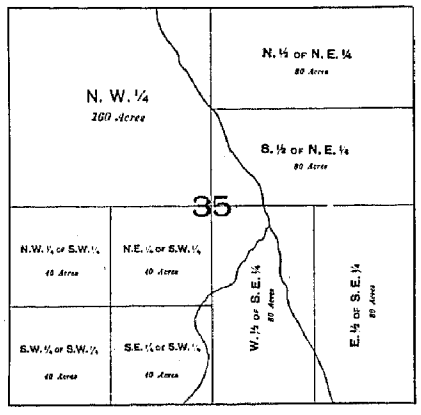

It is the duty of the surveyor to find all lakes and rivers and "meander" them. By "meandering is meant a correct survey of a lake or river, courses and distances run, and notes taken of the same.

Here is where the descriptions called "lots" come in, the remainder of the section being divided into lots generally not less than twenty or more than sixty-eight acres. Lakes in the interior of sections are sometimes missed, and so are held and sold by the government as land, there being no record otherwise.

In the subdivisions of a section lines are run East and West and North and South from the quarter post. The section is thus divided into quarters and these quarters are subdivided as above.

Often the "forties" are not of the same size owing to the inaccuracies, and here the words "more or less," become useful in the descriptions in deeds. All the North tiers of North half of sections are divided by East and West lines, and all the West tiers of West half of sections are divided by North and South lines. The excess or deficiency in the original survey is thrown upon these sections, hence they are called "fractional."

The following diagram shows the subdivisions of a section as used in the description of land.

SURVEY OF MEDINA COUNTY.

The Western Reserve of Connecticut lies between the parallels of 41° and 42° 2″ of north latitude, commencing with the western boundary line of Pa., and extending thence one nundred and twenty miles westward.

The entire tract embraces an area of seven thousand four hundred and forty square miles, nearly one-third of which is water.

If the whole were land there would be four million seven hundred sixty-one thousand six hundred acres. It is composed of the counties of Ashtabula, Trumbull, Portage, Geauga, Lake, Cuyahoga, Medina, Lorain, Huron, Erie, Summit (except the townships of Franklin and Green), the two northern tiers of townships in Mahoning, the townships of Sullivan, Troy and Ruggles, in Ashland, and several islands lying north of Sandusky, including Kelley's and Put-in-Bay. This is the land portion of the Reserve. The portion consisting of water lies between the southern shores of Lake Erie and the forty-second degree of north latitude, and is bounded on the east and west by the same parallels of longitude that form the east and west boundaries of the land portion.

On the tenth of February, 1788, certain lands lying within the limits of the Reserve were sold to General Samuel H. Parsons, then of Middletown, Conn. This was afterward known as the Salt Spring tract.

No survey had been made, but in the description of the land conveyed the numbers of the townships and ranges were designated as if actually defined. General Parsons had explored the country, and had found the location of a salt spring near the Mahoning.

He selected his tract so as it should include this spring, from which he expected to manufacture salt and to make his fortune.

The entire number of acres thus sold and conveyed to Mr. Parsons, as afterwards determined by the survey made by the Connecticut Land Co., was twenty-five thousand four hundred and fifty. The description in the deed is as follows:

"Beginning at the north-east corner of the first township, in the third range of townships; thence running northwardly on the west line of the second range of said lands to forty-one degrees and twelve minutes of north latitude; thence west three miles; thence southwardly parallel to the west line of Penna., two miles and one-half; thence west to the west line of said third range; thence southwardly parallel to the west line of Penna. to the north line of the first township in the third range; thence east to the first bound."

In 1795 Connecticut sold all the Reserve, except the "Sufferers' Land" and the Salt Spring tract, to a number of men who came to be known as the Connecticut Land Company.

The "Sufferers' Lands" comprise a tract of five hundred thousand acres, taken from the western end of the Reserve, and set apart by the legislature of the State on the 10th of May, 1792, and donated to the suffering inhabitants of the towns of Greenwich, Norwalk, Fairfield, Danbury, New and East Haven, New London, Richfield and Groton, who had sustained severe losses during the Revolution. Upwards of two thousand persons were rendered homeless from the incursions of the British, aided by Benedict Arnold, and their villages pillaged and burned. To compensate them for this great calamity this donation was made to them.

The lands thus given are bounded on the north by Lake Erie, south by the base line of the Reserve, west by its western line, and east by a line parallel with its western line, and at such a distance from it as to embrace one-half million acres.

The counties of Huron and Erie and the township of Ruggles, in Ashland, comprise these lands. An account of each sufferer's loss was taken in pounds, shillings and pence, and a price placed upon the lands, and each sufferer received lands proportioned to the amount of his loss.

These lands finally took the name of "Fire Lands," from the fact that the greater part of the losses resulted from fire.

The title having been perfected, the company made preparations to survey the portion of the Reserve lying east of the Cuyahoga.

In the early part of May, 1796, the company fitted out an expedition for the purpose, of which Moses Cleaveland was the leader of the company—all told of about forty men—five of them surveyors, one a physician, and the rest chainmen and axemen.

By previous arrangement they met at Schenectady, New York, at which point they commenced their journey, ascending the Mohawk in four flat-bottomed boats, proceeding by the way of Oswego, Niagara and Queenstown to Buffalo, reaching the soil of the Reserve on the 4th of July.

The surveyors proceeded to the south line of the Reserve, and ascertained the point where the forty-first degree of north latitude intersects the western line of Pennsylvania, and from this line of latitude as a base, meridian lines five miles apart were run north to the lake. Lines of latitude were then run five miles apart, thus dividing the Reserve into townships five miles square.

As the lands lying west of the Cuyahoga belonged to the Indians until the treaty of Fort Industry, in 1805, the Reserve was not surveyed at this time farther west than to the Cuyahoga and the portage between it and the Tuscarawas, a distance west from the western lines of Pennsylvania of fifty-six miles. The remainder of the Reserve was surveyed in 1806.

The Land Company made a contract with Abraham Tappan and Anson Sessions, in 1805, for the survey of the lands of the Reserve between the Sufferer's lands and the Cuyahoga. The limited width of range nineteen, embracing in Lorain county the townships of Brownhelm, Henrietta, Camden, Brighton, Rochester, and Troy of Ashland county, is proof of the fact that the Reserve is less than one hundred and twenty miles in length.

Judge Boynton says: "This tier of townships is gore-shaped, and is much less than five miles wide, circumstances leading the company to divide all south of Brownhelm into tracts and use them for the purpose of equalization. The west line of range nineteen, from north to south, as originally run, bears to the west, and between it and range twenty, as indicated on the map, there is a strip of land, also gore-shaped, that was left in the first instance unsurveyed, the surveyors not knowing the exact whereabouts of the eastern line of the 'half-million acres' belonging to the Sufferers." In 1806 Amos Spafford, of Cleveland, and Almon Ruggles, of Huron, were agreed on by the two companies to ascertain and locate the line between the Fire Lands and the lands of the Connecticut Company.

They first surveyed off the "half-million acres" belonging to the Sufferers, and, not agreeing with Seth Pease, who had run out the base and west line, a dispute arose between the two companies, which was finally adjusted before the draft by establishing the eastern line of the Fire Lands where it now is.

This left a strip of land east of the Fire Lands, called surplus lands, which was included in range nineteen.

The inferior townships, having been equalized by the addition of other tracts or parts of tracts, the drawing began in which the members of the company each received his individual share of the land owned by the company. In the third draft of shares made by the company in 1807, the lands of the company lying west of the Cuyahoga thus passed into the hands of individual owners, who then sold to the early settlers in such quantities and shape as could be agreed upon. Thus the surveys following those of the company were private surveys made to suit the owners of the land; hence the great irregularity in the subdivision of townships into tracts, lots and farms.

Brunswick was surveyed before 1812 by Abraham Freese, the west half into 320 acre lots. In 1817, the east half, owned by three men, was divided into three tracts and then into lots of various sizes.

Chatham was divided into twenty-one tracts of unequal size and irregular shape to accommodate the same number of owners, and these tracts were then divided into lots of unequal size.

Guilford was formerly divided into four quarters, owned by the four persons who bought it of the company. Later it was divided into thirty lots.

Granger was originally divided into one hundred lots all of which remains the same except the north-west corner which became the property of Mr. Remson and was divided into forty-six lots.

Harrisville was surveyed in 1810 into 160 lots supposed to contain 100 acres each, but which are all less than that.

Hinckley, formerly owned by Judge Samuel Hinckley, was surveyed in 1819 by Abraham Freese into 100 lots of about 160 acres each.

Homer was divided by an early survey into twenty-five sections of about equal size and shape.

Lafayette was probably first surveyed in 1818 and divided into four tracts and these divided into lots of very unequal size.

Litchfield was owned by Judge Holmes and he caused it to be surveyed about 1813 and laid out in fifty-six lots arranged symmetrically.

Liverpool was at one time the property of Daniel Coit and he had it surveyed in 1817 into twenty-five sections.

Medina was surveyed in 1810 into eighty-one lots of about equal size and shape.

Montville, formerly the property of General Champion, was surveyed in 1818 into 106 lots all of the same size except the west tier.

Sharon was surveyed in 1827 into eighty lots, being ten east and west and eight north and south.

Spencer was divided into twenty-five sections by an early survey.

Wadsworth was first surveyed into nine tracts, the first eight of which belonged to individual owners. The ninth belonging to several owners accounts for the unequal size of the lots.

Westfield was surveyed by George Collier into six tiers of lots north and south and ten east and west, the center two tiers east and west being of equal size, and the remainder of the lots being alike.

York was divided in 1830 by survey into six tracts, five of which run east and west and one north and south, each owned by one person.

CONGRESS LANDS.

Congress Lands are so called because they were sold to purchasers by the immediate agents of the government, conformably to laws enacted by Congress. They are all regularly surveyed into townships of six miles square each, under the authority and at the expense of the national government. In the eastern half of the State, that is, east of the Scioto river, and on a meridian line drawn three miles within the eastern limits of Marion and Crawford counties, the ranges are counted from east to west, and the numbers of the townships from south to north, beginning on the Ohio as a base. But, in the west half of the State, the ranges begin on the State line of Indiana, and are counted eastwardly, until they reach the other ranges, which are numbered westwardly, as above mentioned, excepting between the two Miami rivers, where the ranges run from south to north, and the numbers of the townships from west to east, that is, from the Great Miami as a base. In the purchase made in 1818, north of the Greenville treaty line, however, a "base line" is made in about the middle of the tract, on the parallel of the 41st degree north latitude, from which the townships are numbered both north and south.

UNITED STATES MILITARY LANDS.

These lands are so called from the circumstance of their having been appropriated by an Act of Congress, of the 1st of June, 1796, to satisfy certain claims of the officers and soldiers of the Revolutionary War. The tract of country embracing these lands is bounded as follows: Beginning at the northwest corner of the original seven ranges, thence south fifty miles, thence west to the Scioto river, thence up said river to the Greenville treaty line, thence northeasterly with said line, to old Fort Lawrence on the Tuscarawas river, thence due east to the place of beginning, including a tract of about 4,000 square miles, or 2,560,000 acres of land. It is, of course, bounded north by the Greenville treaty line, east by the seven ranges of townships, south by the Congress and Refugee lands, and west by the Scioto river.

These lands are surveyed into townships five miles square. The townships were then again originally surveyed into quarter townships, of two and a half miles square, containing 4,000 acres each. Subsequently, some of these quarter townships were subdivided into forty lots of 100 acres each, for the accommodation of those soldiers who held warrants for 100 acres only. And, again, after the time originally assigned for the location of these warrants had expired, certain quarter townships, which had not been located, were divided into sections of one mile square each, and sold by the general government like the main body of Congress lands.

WESTERN RESERVE.

This land, as before stated, was originally granted to Connecticut, by Charles II, in 1662. This territory is situated in the northeast portion of the State, between Lake Erie on the north, Pennsylvania on the east, the parallel of the 41st degree of latitude on the south, and Sandusky and Seneca counties on the west. It extends 120 miles from east to west, and will average about fifty miles north and south, though upon the Pennsylvania line it is sixty-eight miles from north to south. The area is about 3,800,000 acres. It is surveyed into townships of five miles square.

After the United States became a nation, the interfering claims of the different States in regard to the original grants made by the Kings of England, as before stated, were likely to become a source of trouble that might terminate in disastrous results. When Congress undertook to obtain the title from the States of their rights to these territories, it was with difficulty that the consent of Connecticut to the cession of her rights could be obtained. A compromise was finally effected, by which Connecticut retained her right to the soil of these 3,800,000 acres, while Congress obtained the right to the jurisdiction over it.

FIRE LANDS.

This is a tract of 781 square miles, or 500,000 acres, in the western part of the Reserve. The name originated from the circumstances of the State of Connecticut having granted these lands, in 1792, as a donation to certain sufferers by fire, occasioned by the burning of the property of her citizens by the English during the Revolutionary War, particularly at New London, Fairfield and Norwalk. These lands include the five westernmost ranges of the Western Reserve townships. Lake Erie and Sandusky Bay project so far south as to leave but the space of six tiers and some fractions of townships between them and the 41st parallel, or a tract of about thirty by twenty-seven miles in extent.

OHIO COMPANY'S LAND.

This is a body of land containing about 1,500,000 acres, including, however, the donation tract, school lands, etc., lying along the Ohio river, and including Meigs, nearly all of Athens, and a considerable part of Washington and Gallia counties. This tract was purchased by the government, Oct. 27, 1787, by Manasseh Cutler and Winthrop Sargeant, from the neighborhood of Salem, Massachusetts, as agents for the "Ohio Company," so called, which had been formed in Masachusetts for the purpose of a settlement in the Ohio country. Only 964,285 acres were ultimately paid for, and, of course, patented. This body of land was then apportioned out into 817 shares of 1,173 acres each, and a town lot of one-third of an acre to each share. These shares were made up to each proprietor, in tracts, one of 640 acres, one of 262, one of 160, one of 100, one of eight, one of three acres, besides the before-mentioned town lot.

THE DONATION TRACT

Is a body of 100,000 acres set off in the northern limits of the Ohio Company's tract, and granted to them by Congress, provided they should obtain one actual settler upon each 100 acres thereof, within five years from the date of the grant, and that so much of the 100,000 acres aforesaid, as should not be taken up, shall revert to the general government.

This tract may, in some respects, be considered a part of the Ohio Company's purchase. It is situated in the northern limits of Washington county.

SYMMES' PURCHASE.

This was a tract of 311,682 acres of land in the southwestern quarter of the State, between the Great and Little Miami rivers. It borders on the Ohio river a distance of twenty-seven miles, and extends so far back from the latter, between the two Miamis, as to include the quantity of land just mentioned. It was patented to John Cleves Symmes, in 1794, for sixty-seven cents per acre. Every section 16, or mile square, in each township, was reserved by Congress for the use of schools; and section 29 for the support of religious institutions, besides fifteen acres around Fort Washington, in Cincinnati. This tract of country is now one of the most valuable in the State.

REFUGEE TRACT.

This is a body of 100,000 acres of land, granted by Congress, February 18, 1801, to certain individuals who left the British provinces during the Revolutionary War and espoused the cause of freedom. It is a narrow strip of country, four and a half miles broad from north to south, and extending eastward from the Scioto river forty-eight miles, at Columbus, into Muskingum county. It includes portions of the counties of Franklin, Fairfield, Perry, Licking and Muskingum.

FRENCH GRANT.

This is a tract of 24,000 acres of land bordering on the Ohio river, in the southeastern portion of Scioto county. It was granted by Congress, in March, 1795, to a number of French families, who lost their lands at Gallipolis by invalid titles. It extends from a point on the Ohio river, one and one-half miles above, but opposite the mouth of Little Sandy Creek, in Kentucky, and extending eight miles in a direct line down the river, and from the two extremities of that line, extending back at right angles sufficiently far to include the quantity of land required, which exceeded four and a half miles back.

Twelve hundred acres additional were afterwards granted, adjoining the above-mentioned track, at its lower end, toward the mouth of Little Scioto river.

DOHRMAN'S GRANT.

This is a six-mile square township of land, containing 23,040 acres, situated in the southeast portion of Tuscarawas county. It was given to Arnold Henry Dohrman, a Portuguese merchant of Lisbon, by Act of Congress of February 27, 1801, "In consideration of his having, during the Revolutionary War, given shelter and aid to the American cruisers and vessels of war."

MORAVIAN LANDS.

These are three several tracts of 4,000 acres each, originally granted by the old Continental Congress, in July, 1787, and confirmed by the Act of Congress, of June 1, 1796, to the Moravian brethren, at Bethlehem, in Pennsylvania, in trust and for the use of the Christianized Indians living thereon.

ZANE'S TRACTS.

These are three several tracts of one mile square each—one on the Muskingum river, which includes the city of Zanesville—one at the crossing of the Hocking river, on which the town of Lancaster is laid out—and the third on the left bank of the Scioto river, opposite Chillicothe. They were granted by Congress, in May, 1796, to Ebenezer Zane, on condition that he should open a road through them from Wheeling, Virginia, to Maysville, Kentucky.

There were also three other tracts, one mile square each, granted to Isaac Zane, in 1802, in consequence of his having been taken prisoner by the Indians when a boy during the Revolutionary War, and living with them most of his life, and having, during that time, performed many acts of kindness and beneficence towards the American people. These tracts are situated in Champaign county, on King's Creek, from three to five miles northwest of Urbana.

THE MAUMEE ROAD LANDS.

These are a body of lands, averaging two miles wide, lying along one mile on each side of the road from the Maumee river, at Perrysburg, to the western limits of the Western Reserve, a distance of about forty-six miles, and comprising nearly 60,000 acres. They were originally granted by the Indian owners, at the treaty of Brownsville, in 1808, to enable the United States to make a road on the line just mentioned.

TURNPIKE LANDS.

These are forty-nine sections, amounting to 31,360 acres, situated along the western side of the Columbus and Sandusky Turnpike, in the eastern part of Seneca, Crawford and Marion counties. They were originally granted by an Act of Congress, on the 3d of March, 1827, and more especially by a supplementary Act the next year. The considerations for which these lands were granted were that the mail stages and all troops and property of the United States, which should ever be moved and transferred along this road, should pass free of toll.

OHIO CANAL LANDS.

Congress, by an Act passed on the 24th of May, 1828, granted to the State of Ohio 500,000 acres of land to aid the State in completing her canals, and also a quantity "equal to one-half of five sections in width on each side of said canal" (the Miami canal), so far as it passes through the public lands, north of the old Greenville treaty line, and this is estimated at 106 miles, thereby making the quantity of land thus granted 340,000 acres—or 840,000 acres in all—provided that all troops and property of the United States transported thereon shall pass free of toll.

SCHOOL LANDS.

By compact between the United States and the State of Ohio, when the latter was admitted, it was stipulated, for and in consideration that the State should never tax the Congress Lands, until after they had been sold five years, and in consideration that the public lands would thereby more readily sell, that the one thirty-sixth part of all the territory included within the limits of the State sohuld be set apart for the support of common schools therein. And, for the purpose of getting at lands which should, in point of quality of soil, be on an average with the whole of the land in the country, they decreed that it should be selected by lot, in small tracts; that, to effect this fairly, it should consist of section number 16, let that section be good or bad, in every township of Congress Land, and also in the Ohio Company's land, and in Symmes' purchases, all of which townships are composed of thirty-six sections each; and, for the United States Military Lands and Western Reserve, a number of quarter townships, two and a half miles square, each (being the smallest survey then made), should be selected by the Secretary of the Treasury, in different places throughout the United States Military Tract, equivalent in quality to the one thirty-sixth part of those two tracts, respectively. And for the Virginia Military Tract, Congress enacted that a quantity of land equal to the one thirty-sixth part of the estimated quantity of land contained therein should be selected by lot, in what is called the "New Purchase," now comprising Wayne, Richland and part of Holmes and Marion counties, in quarter township tracts of three miles square each.

COLLEGE TOWNSHIPS.

These lands are embraced in three townships, six miles square each, granted by Congress—two of them to the Ohio Company, for the use of a college to be established within their purchase, and one for the use of the inhabitants of Symmes' purchase.

The two in the Ohio Company's purchase are situated near the center of Athens county, and constitute a considerable part of the permanent funds of the Ohio University at Athens. That one belonging to Symmes' purchase composes the northwestern township in Butler county. Its income is appropriated to the Miami University, which is erected thereon.

MINISTERIAL LANDS.

In both the Ohio Company's and Symmes' purchase, every section 29—equal to one thirty-sixth part of every township—was reserved as a permanent fund for the support of a settled minister.

SALT SECTIONS.

Near the center of Jackson county Congress originally reserved from sale thirty-six sections or one six-mile square township around and including what was called the Scioto Salt Licks, also one-quarter of a five-mile square township in what is now Delaware county, in all forty-two and a quarter sections, or 27,040 acres.

VIRGINIA MILITARY LANDS.

This is one of the largest and most important reservations of lands made by the States which ceded territory to the general government.

This tract of land is situated between the Little Miami and Scioto rivers. It embraces within its limits Adams, Brown, Clermont, Clinton, Fayette, Highland, Madison and Union counties, entirely, and portions of Marion, Delaware, Franklin, Pickaway, Ross, Pike, Scioto, Warren, Greene, Clark, Champaign, Logan and Hardin. It embraces a body of 6,570 square miles, or 4,204,800 acres of land.

As stated elsewhere, Virginia had, during the progress of the Revolutionary War, promised her officers and soldiers serving in the Continental line large bounties in land. When she ceded her territory northwest of the Ohio to the general government, she reserved enough of the land to fulfill her engagements with her troops who had served in the Continental Army.

His education was acquired in the common schools of the county. He has held the office of trustee of the township and assessor, in both of which he has been an efficient and capable official. Fraternally he is a member of the F. & A. M. Mr. Canfield was married June 19, 1862, to Miss Emily L. Beckwith, born in Litchfield township August 4, 1840. They are the parents of four children. In the settlement of political questions our subject is always found on the side of the republicans.

CHARLTON, T. C., was born in Watlington, Oxfordshire, England, spoken of in early history as, "A pleasant little market town situated under the hills and remarkable for white elderberries." It is fourteeen miles from Oxford and forty-six from London. The day of his birth was July 11, 1826. His parents names were Coville and Elizabeth Charlton.

They owned some property besides their home and were considered as belonging to what is there known as the middle class, neither very rich or very poor. Two sisters older and two brothers younger comprised the family, all of whom are dead except our subject and his younger brother. Both parents were for many years members of the Wesleyan Methodist church and the mother held positions of influence both in the church and community. She was a woman of more than ordinary intelligence, force of character, sterling piety, and natural ingenuity. Mr. Charlton loved his mother intensely and could not bear her disapprobation or displeasure. Her influence, example, counsel and discipline did much in forming his moral character. She by example and precept taught him to abstain from intoxicating beverages and led him to believe that it would not add to his manhood if he carried in his mouth a roll of tobacco with the attachments of fire and smoke. His school privileges were meager as compared with today but the parents gave their family the best that circumstances would afford, and the knowledge our subject there obtained lay the foundation for his advanced intelligence and mental improvement. At about the age of thirteen he was legally bound an apprentice for seven years to learn to make wagons and agricultural implements, for which his parents paid a premium of twenty pounds. He served his time and continued in the same employ three years more.

At about the age of fourteen he united with the Wesleyan Methodist church, and seven years later was licensed as a local preacher. From that time till he left England he preached from one to three times nearly every sabbath, often walking from four to eighteen miles with no remuneration except the assurance that his labors were acceptable and useful. In 1856 Mr. Zachary Deane, who had been county surveyor of this county, made his last visit to England and Mr. C. was induced to come with him when he returned to America. On February 2nd, 1857, Mr. C. was married to Elizabeth Gibbons, his present wife. She was born in Reading, Berkshire, May 30, 1836, the daughter of William and Mary Gibbons. In about two weeks after marriage they took passage for America, had a very stormy voyage, were sixteen days on the water, and landed in Boston March 2nd, 1857. They proceeded to New Haven to visit a brother and then met Mr. Deane in New York and came with him to Weymouth, where they remained till fall. They then moved to Copley, Summit county, and remained there till the summer of 1863 when they removed to Hinckley. On October 9, 1863, Mr. C. became a naturalized citizen of the United States. During the rebellion his sympathies were with the republican party and he still reveres the great work they accomplished, but he now believes the curse and slavery of rum to be a more deadly evil than was the slavery of the South and he hopes to see it surpressed. He now votes more for men and principles than for party. Our subject

has now living four sons and two daughters, all married, and eight living grand children. He is still a local minister, working also at his trade, assisted by his oldest son. He has been a J. P. for ten years and is also a member of the Patrons of Husbandry.

CHAPMAN, W. B., JR., the present efficient clerk of Lafayette township, began life in that township on the 18th of October, 1871, and has been a resident there ever since. He was elected to that office in 1894. He is an active member of the K. of P. Lodge No. 60, of Medina. His store at Lafayette Center is famous as a well-filled general store. He keeps a full and complete line of dry goods, notions, groceries, provisions, etc., and is always accommodating and obliging to his many customers. He has a large and paying trade which is steadily on the increase. His education was received in the schools of his native county.

CHIDSEY, H. J., of Hinckley township, is one of the enterprising, prosperous farmers and stock raisers of that township. He comes from good old Connecticut stock, having been born in that state May 20, 1833. His parents came to Ohio when he was only one and one-half years old, where he remained till twenty-four years of age, receiving in the meantime a good common school education.

In the fall of 1856 he became matrimonially inclined, and so on the eighth day of January, 1857 he was joined in wedlock to Janett R. Greenwood, a native of Wayne county, and to them have been born two children, a boy and a girl. On the first farm purchased in Hinckley he remained for nineteen years and then sold that and purchased the one where he now resides, which consists of ninety-seven acres. This has since been his home with the exception of seven years spent in the employ of the Chandler & Rudd Co., of Cleveland, as general manager of that firm's delivery business. During this time his wife died, and on September 15, 1894, he was married to Miss Alice Crumpler, of Strongsville. His present farm is pleasantly located and he enjoys the company of a large circle of friends.

CLEMENT, E. A., is one of the leading educational men of the county, having for the past two years been a member of the county board of school examiners and for the last year its president. For twenty-seven years he has taught school and has always stood in the front rank of his profession. He was born July 18, 1848, in Strongsville township, Cuyahoga county, the son of Edward and Sophia R. Clement, the former born in 1818 and the latter in 1819, both natives of England. Mr. Clement was married to Miss Clara Bennett, who was born in Brunswick township in 1852. She began her education in the district schools and finished it in Baldwin University. Mr. C. acquired his early education in his native town and finished it in Oberlin College. He is one of the prominent and progressive farmers of his township, also one of the leading republicans.

CLARK, WILLIAM P. Among the pioneers of Medina county our subject takes a prominent place. His birth occurred April 9, 1820, in Rutland county, Vt., the son of John and Besty Tyler Clark, who with our subject removed to Ohio in October, 1832, and located on the farm in Montville township, where Wm. P. now resides. Here it was that the subject of this sketch received his first lessons in pioneer life, receiving also such educaton as the schools of those days afforded. He commenced teaching at the age of nineteen years in the district schools and followed the profession, with the exception of intervals when in poor health, until 1845, when he purchased the old I. O. O. F. hall which stood just west of J. P. Miller's store and removed the same to the lot east of the Congregational church, where he organized the Medina Select School, which he taught for eight years In the spring of 1852 he accepted a position in the schools of Hillsdale, Mich., which he held for two years and from there went to Norwalk, Ohio, where he remained one year. In 1855 he was made principal of the Kinsman Academy, at Kinsman, Trumbull county, Ohio, where he remained nearly three years when failing health compelled him to again withdraw from the profession, and he returned to Montville township where he remained till 1871 when he became superintendent of the Medina schools for nearly two years. He also taught the public schools of Gustavus, and Mt. Gilead, O. He was assisted, both at Hillsdale and Kinsman, by his wife. He first received the appointment as school examiner of Medina county as early as 1845, and held the office, with the exception of about three years, until Prof. J. R. Kennan, of Medina, was elected. Mr. Clark was married August 23, 1849, to Miss Sarah G. Fenn. She was born at Nelson, Portage county, Ohio, August 26, 1822, and graduated at Mt. Holyoke Seminary, and was a successful teacher after as well as before her marriage. Three children were born as a result of this union, viz: Anna, who died in infancy; Herbert W., who died Feb. 26, 1880, when in his 21st year; and Sarah F.

Mrs. Clark departed this life September 30, 1893. She and Mr. Clark were both members of the Congregational church of Medina. Mr. C. has held many positions of trust and honor in his township. After acting as deputy county surveyor for a time he received the nomination for surveyor and was elected to the office, which he held for two terms, and since that time he continued surveying until failing health compelled him to abandon it. In politics he votes with the party of Lincoln and Grant.

The ancestors of our subject were of genuine yankee stock of the state of Massachusetts, coming originally from England, Scotland and Wales, with a slight trace of French blood in some of the early generations. Both great-grandfathers on his mother's side served in the Revolutionary war, one being commissioned a lieutenant by John Hancock. Both of the original commissions of these soldiers are now in the possession of Mr. Cole. The first ancestor of which we have record on the father's side was a blacksmith of Plymouth Colony in 1632. He was offered a commission by Gov. Bradford as a member of a Boston Artillery company. He died in 1664. These early generations gradually drifted with the tide of emigration to central New York, and in 1832 the grandfather of our subject came to Ohio, locating on the farm now occupied by our subject, Martin E. With his family he came in covered wagons, shipping their goods by water to Cleveland, then only a small shipping station and the nearest one to Medina county. Mrs. Cole, the mother of Martin E. came with her father to this farm in 1832 when ten years old and now resides with her son at the advanced age of seventy-five years. As a general farmer and tobacco raiser he has been very successful, notwithstanding the low price of wool for the last few years he has continued to raise it and now rejoices at the prospects for a better price in the future. He has always given his entire time to farming and so has never felt that he had the time for political office, although he takes great interest in political questions and votes for the republican candidates, sound money and protection. His marriage to Belvia Slemmons occurred March 4, 1890, she having been born in Milton township, Wayne county, Ohio, July 2, 1867, the daughter of Samuel and Rachel Patton Slemmons. CAPITAL STOCK,

$75,000.00.

THE histories of the great financial institutions of the world, form, if written separately, a large part of the earthly record. And so of a nation, a city or a village. Without sound financial institutions we should be like a ship without a rudder or a compass, wandering aimlessly about upon the great sea of business, the victim of the winds of bankruptcy and the waves of financial ruin.

The Phoenix National Bank had its origin in the minds of some of the best and ablest business men in this section of the state. Men whom a wide range of business relations had fitted to manage successfully the institution they sought to establish. With such men as these to manage the affairs, its success was assured from the start. The charter which was issued by the United States on February 10, 1873, authorized a capital stock of $50,000.00 which was increased to $75,000.00 a few years later. The officers chosen were J. H. Albro, president, H. G. Blake, cashier. The board of directors were J. H. Albro, H. G. Blake, John Rounds, S. G. Barnard, B. H. Wood, N. T. Burnham, R. M. McDowell, A. H. Hawley and C. J. Warner. This charter, which on the U. S. Treasury Department records was No. 2091, expired in 1893. Not wishing a new charter for the old organization, a change was made in the name and a new charter which is recorded as No. 4842 was issued to The Old Phoenix National Bank. This charter, issued in 1893, will expire in 1913. In the new organization nearly the same men are at the helm as in the old. They are all men of sterling integrity and good financial ability, and under this management the bank continues to flourish the same as under the former management. Under the present charter the officers and directors are as shown above. The capital stock is $75,000.00 and there is a surplus fund of $6,000.00, undivided profits of over $3,500.00, and deposits of over $313,000.00. This last named item shows the confidence the public has in the soundness and stability of this institution. Four per cent interest is paid on all deposits in the savings department. The public is always sure of considerate and courteous treatment when doing business with this, the oldest, the strongest and soundest financial institution in Medina county.

He began his medical study in 1875, at Ashtabula, and later entered The Cleveland Homeopathic Hospital College at Cleveland, from which he graduated in the spring of 1882, and soon after came to Medina and began the practice of his profession in which he has been very successful. He has a fine office located on South Court street on the first floor, which is very commodious and modern in all of its appointments. The Doctor has been two terms a member of the village council, president of the county board of pension examiners, under President Harrison's administration, president one term of the Northeastern Ohio Medical Association, a member of the Board of Censors of the Cleveland Medical College and surgeon nine years for the C. At the age of nineteen he began teaching and has been very successful in that vocation. For some years he farmed in summer and taught school winters. For the last six years Mr. C. has been secretary of the Union Insurance Co., of Medina, Wayne, and Summit counties, and the success of that enterprise is in a large measure due to his efforts. He has also been Master of the Montville Grange since its organization three years ago. He has held various township offices and was real estate assessor in 1880. The Savings Deposit Bank, Medina, O.

This Bank was incorporated and organized in November, 1892.

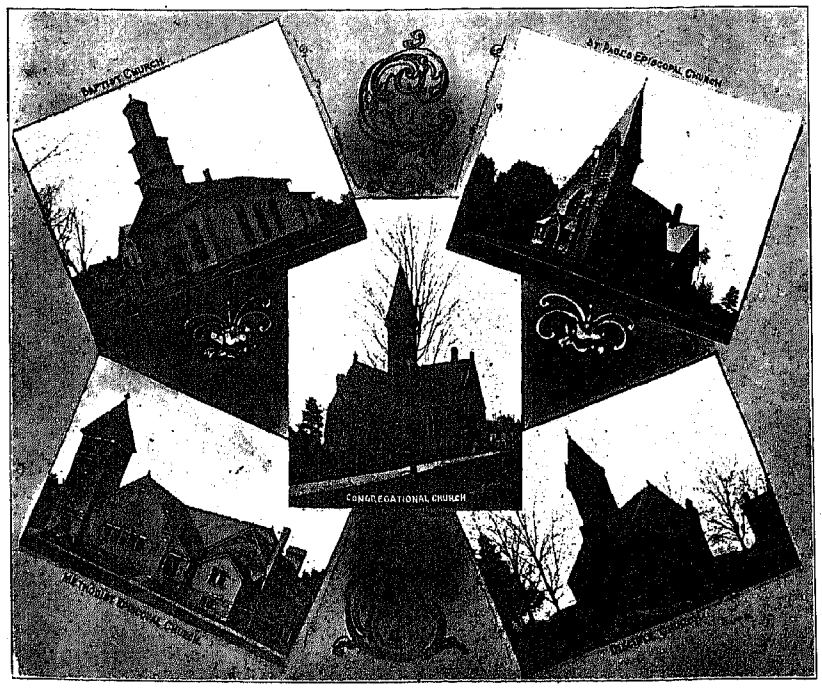

It was the first Savings Bank in Medina county, and prior to its organization no bank in the county paid interest regularly on deposits. The necessity of such a bank in the vicinity at once manifested itself to the people, and it has been liberally patronized, few banks having built up so large and successful a business in so short a time, its individual deposits having reached $150,000.00.

Its officers being men of known business integrity and ability, numbering among its stockholders men of the highest financial standing in the community, and being subject to examination under the laws of Ohio, it at once furnishes a place of investment as well as a place of safety for money.

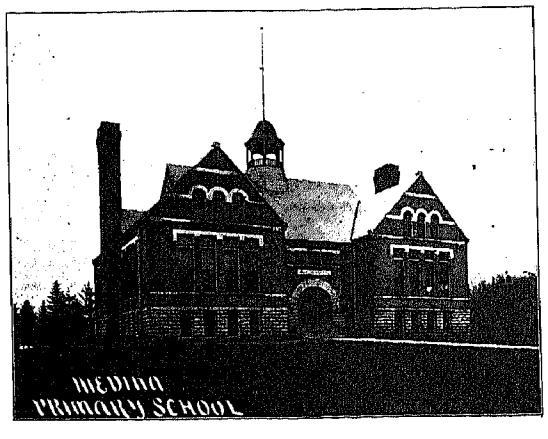

The bank building, a cut of which appears herewith, is located on the north side of the public square, was built specially for banking purposes, being large, commodious, and having private rooms for the use of its patrons, making it especially convenient for ladies desiring to do a banking business.

been born at Bristol, Conn., June 28, 1804, and Mrs. Fuller at Burlington Conn., Mar. 4, 1802. H. A., the subject of our sketch, came to Ohio and located in Wayne county in 1836. His education was completed in Canaan Academy in 1845-46. He is now one of the oldest and most reliable farmers of Harrisville township, where he carries on general farming and stock raising. Giving special attention to the culture of wheat and the breeding of Durham cattle, in both of which he is very successful. He was married February 12, 1857, to Amanda High, of Springfield, Ohio. She was born in 1834. He was married a second time, November 2, 1871, to Mary Jane Burns, of Canaan, O., born December 29, 1844. By his first wife he had three boys and three girls, one of whom is living. To the second union three children have been born, two girls and one boy, all of whom are living. Mr. Fuller takes a decided interest in politics, casting his vote with the republican party.

GANYARD, CALVIN S. In the records of Granger township we find the name Ganyard more often than any other. This family is of French descent and came to this country in an early day, settling first in Connecticut, removing thence to New York and from there to Ohio. The father of our subject, Abner Ganyard, was born October 7, 1793, at Hartland, Conn., and his wife, Betsey Strong Ganyard, January 16, 1796, at Cherry Valley, N. Y. Abner Ganyard came to Ohio in 1818 and located in Granger township, and his wife came in 1828. Our subject was born in Granger township December 20, 1833, and has lived there all his life. He owns a large farm where he resides, which is kept in first-class condition by the modern methods of practical farming. Three terms at an academy in the township finished his education, begun in the district school. He is a man who keeps well posted on the current questions of the day, and is considered by his friends as a man of sound judgment and excellent business ability. At an early day of the Rebellion he was elected captain of a company of state militia, and at various times has held all of the township offices except that of treasurer.

On April 4, 1892, he was elected to the house of representatives of the seventieth general assembly as successor of Hon. Henry P. Camp and was re-elected to the seventy-first assembly. He was known as an able and hard-working member. He was married December 29, 1857, to Mariett Simmons, who was born at Bristol, N. Y., December 19, 1839, the daughter of Zenas and Louisa Simmons. Mrs. Ganyard was educated in the schools of Granger, and is a refined and estimable woman. To this marriage have been born five children, four sons and one daughter, the latter having died July 12, 1882. Mr. G. is a member of the Patrons of Husbandry and a staunch and active member of the republican party.

GANYARD, GEORGE M., was born on the farm he now occupies in Granger township, November 7, 1834. His father, Festus Ganyard, was born March 27, 1791, in Litchfield county, Conn., and removed to Canandagua, Ontario county, N. Y. His mother, Betsey Burt Ganyard, was born March 13, 1802, and was married to Mr. G. March 27, 1822. In 1818, Mr. Ganyard, the father of our subject, came to Ohio and settled in Granger township on the farm now owned by his son. This farm he selected from the surveyor's plat while in Connecticut before coming to Ohio, being told by him that it was a piece of timber land covered here and there wtih great patches of nettles and vegetation of all kinds. The present fertilty of the soil proves that he made no mistake in choosing. On the 22d day of February, 1864, our subject was united in marriage to Miss Mary P. Haight, who was born in Sharon township, this county, September 12, 1844. To this union have been born two children, viz.: Eudoice M., born March 17, 1866, and Alida H., born July 17, 1872. Mr. and Mrs. Ganyard each received a good education in the various schools of the township, and by reading and observation have become well informed, intelligent and valued members of society. Mr. G. owns a large farm where he resides, and which is kept under a very high state of cultivation. To look over this farm is sufficient evidence of the thorough and painstaking way in which he carries on business. He has been elected to the various township offices and has filled them very creditably. As commissioner of Medina county for six years, commencing 1880, he filled that office with honor to himself and credit to the county. He is also one of the directors of the Ohio Farmers' Insurance Company. In politics he is a staunch republican and works for the best interests of his party.

GANYARD, L. B., the present efficient surveyor of Medina county, has held that office since January, 1893. He was born in Granger township, this county, December 25, 1862, where he lived till coming to Medina. GARVER, J. F., comes of one of the oldest families of Medina county, his father having taken up his residence in Spencer township in 1849. The Garvers are a thrifty, industrious family and have been very successful in the management of financial affairs. Mr. G. was born in Chatham township May 19, 1860, and has always lived in that township. He received a common school education and has given his entire attention to farming in which he is very successful. Mrs. Garver, the wife of our subject, was born in Lafayette township, the daughter of Mr. and Mrs. A. B. Dean, whose biography appears upon another page of this work. She is an estimable lady and a good type of the thrifty housewife. Mr. Garver is the son of Samuel and Sarah Rice Garver, the former a native of Pennsylvania and the latter of Ohio. He is one of the prominent citizens of his township and gives much attention to the raising of fine stock.

In the spring of 1870 he moved to Cleveland, Ohio, and found employment in a wholesale dry goods house where he remained for seventeen years. In 1872 he was married to Mary Bauer, and to them three children have been born, two boys and one girl. In the spring of 1886 his wife died, and his own health being poor, he took a trip to his native country. In August, 1887, he was married to Mrs. C. W. Steck of Brunswick, where he now resides. GOODWIN, HIRAM. The family name Goodwin has been widely distributed, not only over England, but over most of the northern countries of Europe. As far back as the fifth century we meet with it in Germany. Elder William Goodwin sailed from London June 22, 1632, arriving in Boston September 16 of the same year. Hiram Goodwin is descended in direct line from William's brother, Ozias, who settled in Hartford, Conn., in 1635. He was born and reared in Granger township, this county, and was educated in the common schools, save two terms in the old Sharon Academy. In early life he learned the trade of carpenter and joiner, following his trade in summer and teaching school in winter. In 1848 he married Martha M. Swan, who was also a teacher. He was township clerk of Granger three years, justice of the peace nine years, and served as deputy provost marshal during the civil war. In 1865 he moved to Medina. The next year formed a partnership with I. R. High in a grocery, and two years later one with his brother, under the firm name of C. A. & H. Goodwin. In 1870 he moved to LaPorte City, Iowa, and engaged in business with his brother, M. W. Goodwin. There his wife died in November of the following year and he returned to Medina with his two children, taking up carpenter work again. He was married a second time, this time to Cornelia Jackson of Canandaigua, N. Y. She was a student at Buffalo, N.Y., at Oberlin, O., a graduate of the National Normal University at Lebanon, O., and a teacher for fifteen years. Mr. Goodwin is a member of the Masonic fraternity, having joined the order in 1861. He is a rapid penman and an accurate accountant, having done much clerical work for forty years. He has been a zealous republican from the first organization of that party, and has held some minor offices, having been justice of the peace of Montville township four years, deputy sheriff under sheriffs Phillips, Farmelee and Stow, also coroner, and is the present village clerk of Medina, having filled the office for a number of years. He was secretary of the Medina County Agricultural Society six years. On the death of Nicholas Van Epp, clerk of courts, he was appointed to fill the vacancy. We copy the following item from the Medina Gazette about the time his term expired: "Although Mr. Goodwin will have served a little less than a year, he has succeeded in establishing an enviable record for general efficiency and attention to the various details of the office. He has been prompt and obliging in every way; and during the brief space of time that he has been in the office, has made a model clerk and one of the best the county has ever had." He is now a justice of the peace of Montville, having been elected in April, 1897.

GRAVES, JOHN T., attorney at law, Medina, Ohio, was born in Niagara county, N. Y., near Lockport. Came to Ohio when he was eight years of age, and was raised on a farm near Seville, Medina county, O. He attended the common schools near his home and afterward the old academy at Seville, also the normal school taught by S. G. Barnard at Medina. He taught district school several winters and read law with Hon. J. C. Johnson, being admitted to the bar in 1871. On account of poor health he did not at once commence practice. A partnership was formed with his former preceptor in 1875, which continued nine years. Mr. Graves was nominated for prosecuting attorney in 1875; was elected and held that office for two terms. He was elected mayor of Seville in 1880 and re-elected to the same office in 1884. During the same year he was elected probate judge of Medina county, and was re-elected to the same office in 1887, and during this year and the succeeding one was chairman of the county executive republican committee. He was elected solicitor of Medina in 1894 and declined a renomination in 1896. Is now a director and vice-president of the Savings Deposit Bank of Medina. His office is over J. P. Miller's store and residence on South Broadway.

GRIDLEY, E. H., is too well known in this section of the state to need any introduction to the people. As secretary and treasurer of the Farmers' Mutual Fire and Lightning Insurance Association of Medina county, he has become well and favorably known. His father, Geo. W. Gridley, was a native of Indiana, and his mother, Sarah Ann Jewett Gridley, a native of New York, and came to Medina county in 1819, locating in Westfield township, but soon after marriage she moved to the farm in Lafayette township where the subject of our sketch now resides with her. She has lived on this farm for over fifty years. Mr. Gridley was born October 6, 1847. He has held his present position since the organization of the company over seventeen years ago, and much of the success of the company is due to his efforts, which have received the hearty support of the board of directors. This company is now one of the strongest in the county and second to none in the state. His education was received in the common schools, supplemented by a course in the commercial department at Oberlin College. Afterward taught several terms of school, and also taught the first penmanship class in the Lodi Academy.

HART, ROMAIN B.—The Empire State has furnished to Medina county a large number of her most worthy citizens, but among them all none more worthy to be placed upon the roll of Medina county's representative citizens than the subject of this sketch. He was born in Webster, Monroe county, N. Y., June 30, 1845, the son of George and Cornelia Sanford Hart, the former born September 10, 1792, and the latter March 6, 1805, and received his education in his native town and at Rochester, N. Y. He remained at home on the farm till July 28, 1862, when he responded to his country's call and enlisted for three years in Co. B, 108th N. Y. V. I. On September 17 of that year, in the battle of Antietam, he was wounded three times, and was so badly injured as to be entitled to a discharge, which he received and returned to his home. After a short time he re-enlisted in Co. H, 22d N. Y. V. C., with the rank of sergeant, and after serving one year was placed on the detailed service. He remained in the war until its close, receiving his discharge August 8, 1865. Returning home, he attended school that winter, then went to Illinois in the spring of 1866, and from there came to Spencer, Medina county, where he was joined in marriage November 13, 1866, to Miss Matilda J. Inman, a native of Spencer, born October 29, 1847, the daughter of Stephen and Sophronia Robbins Inman. She received her education at Spencer and Wellington. For several years Mr. H. conducted a cheese factory in Spencer. In 1875 he purchased a farm in Lafayette township, where he lived till 1881, when he removed to Spencer village and engaged in mercantile pursuits till the winter of 1892-93, being also postmaster of that place from June 10, 1888, till December 1, 1892, when he moved to Medina village to assume the duties of county recorder, to which office he was elected in the fall of 1892. So acceptably did he perform the duties of that office that he was re-elected to a second term, which he is now filling. Mr. and Mrs. Hart are both active and earnest members of the Knights and Ladies of Security, and he of the G. A. R. They are the parents of five daughters, of whom they are justly proud, viz.: Mary A., the wife of Chas. M. Gill of De Soto, Mo.; Bertha M., the wife of J. D. Grissinger of Seville, Ohio, and Grace A., Melva L., and Mabel S., who are at home. Mr. H. is a staunch supporter of the republican party, and has done much for its success in this county. He and his wife are both members of the Congregational church.

HATCH, J. S., of Granger township, is well known as a prosperous and influential farmer. He is a native of the Empire State, having been born in Ontario county on the 14th day of 1833. When one year old he came with his parents to Granger and has resided there ever since. Thus over a half century has been spent in the improvement and development of his adopted home. Besides his successful career as a farmer, he acts as agent for the Farmers' Mutual Insurance Co., and for eleven years was one of its directors. He has held numerous public offices, among which may be mentioned township trustee, assessor and justice of the peace. His marriage to Miss Mary F. Tallman took place December 6, 1860. Her birth occurred in St. Lawrence county, N. Y., on the 26th of June, 1840. To this union were born six children. Mrs. Hatch passed from this life August 11, 1879. She was a devoted wife and mother. His early education was received in the district school and he followed farming and cheese making till twenty-three years of age. Since 1888 he has served his township in the capacity of treasurer with excellent satisfaction to his constituents, as is evidenced by his continuance in office. As postmaster since January 1st, 1882, he has given excellent satisfaction to the patrons of that office. Mr. Haight was married September 3, 1885, to Lelia M. He is the son of J. E. and Gelia

E. Hammond, the former born August 20, 1846, and the latter born October 7, 1841. Mr. Hammond departed this life May 12, 1891. Our subject, H. J., was educated in the schools of Sharon township and was the first to graduate from the Sharon high school, as organized by Prof. J. B. Doerly. Mr. Hammond is engaged in farming and stock raising and pays a great deal of attention to good breeds of stock, and especially that of Holstein cattle. Their farm is pleasantly located a short distance east of Sharon Center, and is watered with numerous springs, one of which they have piped into the house, thus affording an unfailing supply of the purest water for household purposes. A beautiful fountain, fed by the same spring, adorns the front yard of the premises, and many a weary traveler is refreshed by cooling draughts from the cup which hangs close by. Mr. H. is a member of the township board of education, elected in 1897, and a staunch and leading republican. Although young yet in years, he is already well up among the leading citzens of that part of the county.

HARTMAN, J. C., began life in Harrisville township on the first day of November, 1855, and has always lived in the state. At the age of eleven years he began working away from home summers and attending school, and thus secured a common school education. As a farmer he gives most of his time to stock raising, and in that line produces some very creditable results. He was married to Mariah Munson, of Franklin township, Wayne county, Ohio, December 31, 1882. The day of his birth was July 21, 1859. They have one child. Mr. Hartman is known as a first-class farmer, thorough, progressive and wide-awake.

At the republican convention of Medina county in June, 1897, Mr. Handyside was unanimously nominated for the office of infirmary director, and will, no doubt, be elected at the coming election.

HALLIWILL, R. The list of representative citizens of Litchfield would be incomplete without the name of the subject of this sketch. He has been a resident of that township since his birth, July 5, 1855. His father, Christopher Halliwill, was born March 22, 1817, and his mother, Harriett Briggs Halliwill, Feb. 25, 1816. Between the age of five and eighteen years our subject attended the district school and finished his education at the Chatham Academy. He carries on his farming and also raises many fine carriage and coach horses for the market. In this Mr. H. has been very successful. At New London, Chester county, Pa., on May 3, 1851, was born E. HAWKINS, F. I., the leading photographer of Medina county, is located on the west side of the public square, Medina, Ohio. He does all kinds of portrait and view work by the latest and most approved methods, and in all the latest styles. He also handles picture frames and cameras of the best make. Out of the thousands of photographs handled by us in the last few years, we can safely say that none excelled his work. His prices are as low as is consistent with first-class work. Being always courteous and obliging, prompt and reliable, he has many warm friends among his many patrons.

HAWLEY, AMOS HOYT. Nothing that we could say regarding the ability, usefulness and integrity of Mr. Hawley could so fully express the public regard for him as the following from the pen of James C. Johnson, president of the company which he served so long and so well: "Amos Hoyt Hawley, late secretary of the Ohio Farmers' Insurance Company, was born at Worthington, Ohio, December 14, 1840, and died at Le Roy, Ohio, September 16, 1890. He was elected secretary December 6, 1866, and held the position until his death. Of Mr. Hawley's remarkable ability as an underwriter there can be no question. This is attested by the rapid and healthy growth of the company under his management. He was a most genial man, and his house was one of the most hospitable in the country. He made the company only second to his family, and his devotion to each was an attractive characteristic of the man. His death will be long felt by all who knew him as well as by the business interest to which he had given his life. At the zenith of his usefulness, when maturity of judgment and wealth of experience and learning commanded regard, he died."

HAYDEN, GEO., is well known as a member of the Medina county bar and insurance agent of Medina. Since April 5, 1840, he has dwelt upon this earthly globe, first making his home in Sharon township where he attended school, worked on the farm and taught shcool till he was twenty-one years old, when, in September, 1861, he joined the 42d Ohio, known as Garfield's regiment and went to the front to help in the defense of the Union, remaining about two years. Returning home he again took up farming and followed it until 1876, when he had the honor to be elected clerk of courts, filling the position to the full satisfaction of the people for six years; in the meantime studying law. The latter was born in River Styx, March 7, 1866. His education was acquired in the common schools and the Medina high school, from which he graduated with the class of 1881. Judge Munson was for two years a director of the Ohio Farmers' Insurance Co., and at the same time one of its adjusters, in which capacity he traveled extensively in Ohio and Indiana. In 1882 Major McKinley's seat in the house of representatives had been contested for some informalities in the election, and, as he was rapidly rising in the esteem of his countrymen, and the house being democratic, he was made an example of and retired to private life. In the year 1883 the Ohio legislature, being democratic, and acting in concert with the national house of representatives, passed a redistricting bill and gerrymandered Major McKinley into what was known as the twentieth district, estimated by them to be safe for a democratic majority of fifteen hundred. This was the crucial period in Major McKinley's political life. It was not believed by the opponents of Major McKinley that should he receive the nomination in this district that he could possibly be elected. Wayne and Summit counties presented strong candidates; the former presented Captain A. S. McClune and the latter George W. Crouse. Both men supposed to have solid delegations behind them and the chances for McKinley's nomination were anything but flattering. At the urgent solicitation of Major McKinley, Judge Munson took the management of his campaign for the nomination, and succeeded after a long and hard fight in accomplishing his nomination with one majority. This was due to the solid vote of Stark and Medina counties. As prearranged before, if these two counties were solid for Major McKinley, nine of the delegates of Summit county had agreed to vote for him instead of Crouse, and on call of that county, after the nomination had been fairly made with the majority of one, they did so. When Wayne county was called three of her delegates caught the spirt of victory and voted for McKinley; thus was his majority increased to thirteen instead of one. Judge Munson presented the name of Major McKinley to the convention in a speech, which was well received and which received favorable comment. Had the Major been defeated at this convention his political prestige would have been broken, his rising star would have been dimmed, and in all probability the McKinley tariff law would never have been placed upon the statute books of the nation. This law gave to Major McKinley his great popularity, and finally lead to his nomination and election to the presidency of the United States. Medina county may feel a just pride in standing by and rendering so valuable a service to the nation in the crucial hour of the life of the foremost man in the nation today; one whose record has been pure and upright in the councils of his party and whose election to the presidency is destined to carry forward an industrial policy which will bring prosperity to the millions of the republic for long years in the future.

NEIL, CHARLES D., for many years the editor and proprietor of "The Medina County Gazette-News," was born in New York city, May 16, 1853. He received a fine education at home and abroad, and was well versed in several languages. For several years he resided in Lodi, until elected clerk of Medina county, when he removed to Medina. He was married January 24, 1883, to Miss Nellie S. Crossley, of New Haven, Conn. While serving as county clerk, he bought an interest in the Gazette-News, and at the expiration of his term of office, he devoted his whole attention to newspaper work. At the death of Capt. Green, Mr. Neil became sole owner of the Gazette-News, and made it one of the best county papers in the state, being greatly aided by his former experience as reporter for the Cleveland Leader and other prominent papers. The fine building in which the Gazette-News is now published was completed by him in the summer of 1896, but he did not live long to enjoy its conveniences, as he died of apoplexy on December 14, 1896, leaving a wife and four children to mourn his loss. Mr. Neil was a generous, public-spirited citizen, ready to aid in any enterprise which tended to advance the interests of Medina. He was a zealous republican and a prominent leader in the councils of his party in Ohio, yet fair and liberal towards his political opponents. In the death of Mr. Neil the whole community truly suffered a great loss. At her husband's death Mrs. Neil assumed the management of the Gazette-News, and as editor and proprietor has demonstrated her ability to keep up the high reputation which the paper had attained.

NETTLETON, B. F., a farmer and general stock raiser of Medina township, was born on the farm where he now resides, February 4, 1843. He acquired the education furnished by the common schools, and since that time has devoted his time to agricultural pursuits. His father, L. B. Nettleton, who came to Medina county August 26, 1829, coming as far as Cleveland by water, thence to Medina township, where he bought the farm where he now lives with his son, of Gen. Northrop, was born in Litchfield county, Conn., October 23, 1807, and his mother, Julia Baldwin Nettleton, was born in the same county on August 22, 1805, and died February 5, 1883. In 1882, on the last day of November, Mr. N. was married to Miss Mary Alcott, who was born in Medina township October 19, 1847, the daughter of P. C. Alcott, a native of Wolcott, Conn., and Sarah Welton Alcott, a native of Medina township. Mr. and Mrs. Nettleton are the parents of three children, one boy and two girls, all of whom are living. Our subject is one of the substantial citizens of his township and takes a lively interest in the advancements of the day.

NEWTON, JAMES, one of the well known and popular merchants of Medina, is located on Liberty street, just west of the public square. He carries a full line of staple and fancy groceries, provisions and fruits and vegetables in their season. He was born in Hinckley township, this county, January 9, 1853, and has always lived in the state. He is the son of F. G. and Sarah Oviatt Newton. For six years he was a member of the board of education of Medina village. His wife before her marriage to Mr. N. was Rowena Morris, of Sharon, this county. She is the daughter of George and Rebecca Waltman Morris. Mr. and Mrs. Newton are the parents of five children, two boys and three girls, viz.: Ernest J., Minnie, Allie, Herbert and Bessie. In politics Mr. Newton is a staunch republican, and at the convention of that party, held in June, 1897, he was nominated for the office of county treasurer, after one of the most spirited contests in the history of the party in this county, there being seven candidates. The election of Mr. N. in November is a foregone conclusion.

NEWTON, ERNEST J., oldest son of James and Rowena Morris Newton, violinist, is undoubtedly the most advanced musician at the present time in Medina county. He completed the four years' course in the Medina high school in 1896, his grades being among the highest, notwithstanding the fact that he devoted on an average five hours daily to violin practice during his last year in school. His success is the result of thorough and systematic work. He is nineteen years of age, plays entirely from memory the concertos and concert pieces of Mendelssohn, Lipinski, De Beriot, etc. He not only excels as a player, but as a teacher as well. He is at present a pupil, both in violin and theory, of Johann Beck of Cleveland, and Medina is his home.

NICHOLS, A. P., D. D. S., is one of the leading citizens and business men of Medina village, where he has lived since 1882. His dental parlors on the south side of the square are first-class in all respects, pleasantly located and furnished with all the modern appliances. Mr. N. was born in Chester, Geauga county, Ohio, August 14, 1849, the son of Orville and Lavira Nichols, the former a native of Vermont and the latter of New York. Our subject, A. P., was educated in the Geauga Seminary. He began the dentists' profession in the year 1874. He is at present the president of the Medina board of education and takes much interest in the welfare and advancement of the schools. He is a member of the Masonic fraternity and of the K. of P. In politics he votes with the republican party. He was married February 22, 1871, Miss Martha A. Van Valkenburgh becoming his wife. She was born in Russell, Geauga county, Ohio. They are the parents of five children.

NICHOLS & FERRIMAN. This firm is recognized as the leading clothing house in this county. Since Adam donned his first suit it has been an ever open question with mankind, "What shall we wear?" In this we are dependent upon our clothiers for styles and patterns as well as the goods. The above firm began business August 1, 1893, and since then have carried a full line of clothing, hats, caps and gents' furnishing goods of the latest styles and in quality from the lower grades to the best.

N. P. Nichols, the senior member of the firm, was born at Riley, McHenry county, Ill., February 25, 1851, and received a common school education. In 1864 he traveled overland from his home in Illinois to Stockton, Cal., where he remained one year and then removed to Titusville, Pa., engaging in the oil business. March 3, 1870, he came to Medina county and located in Litchfield township, where he engaged in the manufacture of cheese and remained there till January 1, 1889, when he assumed his duties as sheriff of Medina county. He was elected to this office two terms and filled it with honor to himself and credit to the county. He then purchased the interest of Mr. Foskett in the clothing firm of Foskett & Lewis, the firm changing to Lewis & Nichols.

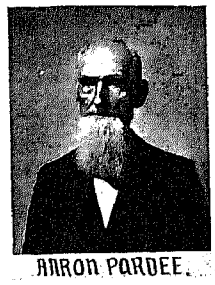

Thomas Ferriman, the junior member of the firm, is a Medina county boy. His birth occurred on the 9th of April, 1845, in Sharon township. He attended the common schools until the age of sixteen, when he began to learn the harness trade, at Richfield, Summit county, Ohio, and followed this for one and one-half years. He next enlisted in Battery A, Ohio Light Artillery, and went to the front in defense of his country, remaining till receiving his discharge August 19, 1865. After the close of the war he returned to Medina county and located in Brunswick township, where he engaged in farming and dealing in stock, wool, grain and lumber. In February, 1883, he engaged with B. H. Wood & Co., of Medina, and remained with them twelve years, afterward purchasing the interest of Mr. Lewis in the firm of Lewis & Nichols, thus forming the present firm.

NOLF BROTHERS. Among the many enterprising business firms of Wadsworth, O., none stand higher in the estimation of the public than the above named firm, which is composed of E. O. and O. L. Nolf. They carry a full line of jewelry and everything pertaining to the trade. Their goods are first-class and are sold strictly on their merits. The firm was organized in 1888 and has stood the trying times, and is today a flourishing, sound concern.

E. O. Nolf was born October 11, 1857, at Nazareth, Pa. He is the son of Stephen and Susan E. Nolf, the former born in Pennsylvania in 1830 and the latter in 1837. Our subject, E. O., came to Wadsworth April 6, 1877, and began working for Daykin & Hilliard, dry goods merchants, with whom he remained three and one-half years, then worked for Wm. Freeborn about four and a half years. He was next in the employ of L. S. Gilbert about six years and later with M. H. Leatherman, hardware dealer, for three years, when the above firm was organized. On June 5, 1884, he was married to Miss Jennie R. Hockensmith, a native of Greentown, Ohio. To this union one girl has been born. He is a member of the I. O. O. F. and P. O. S. of A., in both of which he has held the highest office. In politics he is a republican.

O. L. Nolf is a native of Pennsylvania, born at Nazareth July 27, 1859. He came to Wadsworth May 30, 1884, and worked for Gardner Bros. for four years and then entered the present firm. He began learning the jeweler's trade with Richard O. Beitle in 1879, while in Pennsylvania. His education was acquired in the common schools. Mr. N. served his township as treasurer for two years, with credit to himself and satisfaction to his constituents. He was joined in wedlock, January 9, 1890, to Ida M. Mills, who was born in Western Star, Ohio. Of this marriage one daughter has been born. He is a supporter of the republican party, and a member of the K. of P. and P. O. S. of A.

NORTON, IRA D., arrived on this mundane sphere in the early part of 1861, the exact date of his arrival being January 14, and the place where he first took up his abode was Lafayette township. He acquired his education in the common schools of the county; has always lived in the county and is at present a prosperous and well-to-do farmer of Harrisville township. His wife, whose maiden name was Mary Clifford, was born in Penfield township, Lorain county, on July 24, 1862, and was joined in marriage to Mr. Norton January 14, 1887. They have two children, both of whom are boys.

OATMAN, S. S. The proprietor of the well known Oatman meat market on South Court street, Medina, is too well known to need any introduction to the people of this locality. His building was erected for the purpose and is one of the most complete in this section of the country. The firm was organized in 1871, and since that time has, by fair and honest dealing, built up an immense trade. They buy direct from the farmers and handle only the best grade of meats. Mr. Oatman began life in Medina township December 11, 1841, and, with the exception of fourteen years in Berea, Ohio, where he engaged in the grocery and meat business, has lived in this county all his life. Returning to Medina in 1894, he purchased the interest of his son, who was conducting the business at that time. On August 4, 1868, Mr. Oatman entered into the bonds of matrimony with Miss Mary F. Lemon, who is also a native of Ohio. To this union have been born two children. Mr. O. enjoys an enviable reputation among his contemporaries for honesty, uprightness and good business qualities.

OATMAN BROTHERS, established 1871. Lyman Oatman, Jr., after serving a three years' apprenticeship with Sanders & Bowman in 1871, bought out D. H. Bachtell, the purchase consisting of a set of tools, a few stoves and some tinware, and he carried on business for one year in one of Hiram Bronson's buildings on North Court street. In 1872 Frank M. Burdoin entered into co-partnership with Mr. Oatman, and for six years they carried on the stove and tinware business in the two-story brick building erected by O. and S. S. Oatman for their use, under the firm name of Oatman & Burdoin. In 1878 Lyman Oatman bought out the interest of F. M. Burdoin and ran the business alone for one year, which brings us up to 1879, when Orlin Oatman entered the business with Lyman under the firm name of Oatman Brothers. At that time they added hardware, paints, oils, varnishes, glass, pumps, agricultural implements, wagon and blacksmiths' furnishings and bent stuff, and since that time they have added slate roofing. Lyman Oatman bought S. S. Oatman's interest in the building and property, and since they have gradually added to the original building, which was 22x60 feet deep, two stories high, until it is now 200 feet deep. This gives them a floor capacity of 12,000 square feet. For their business they also have built a fire-proof building of iron in the rear for combustibles. Still further in the rear they have their company stables and sheds for horses, wagons, etc. It has been truly said that they always employ the best workmen. In 1896 they put in machinery for manufacturing bicycles and are now prepared, with A. W. Oatman at the head of this department, to do anything in this line from mending a bike to making a bicycle to order to suit even the most fastidious. They have the agency, for Medina county, of the famous Round Oak air-tight heating stove, made by P. D. Beckwith, in Dowagiac, Michigan; also the Climax Range, made by Taplin, Rice & Co., of Akron, Ohio, which have become so popular, they being perfectly adapted to coal or wood. Their trade on these stoves has been phenomenal. They have sold over thirteen hundred Round Oaks in Medina county and many hundred Climax Ranges, and we can safely say that these two stoves are the best made and the most reasonable in price, as hundreds of the best familes in Medina county can testify. In 1890 they added furnaces to their business, and have had the honor of putting in more furnaces in Medina than any other firm. They have succeeded in getting the agency of Medina county for the wonderful Round Oak Furnace, which is air-tight, and which they guarantee to keep fire equal to the Round Oak stove, which is the comfort and economy of a furnace. This furnace will burn hard coal, soft coal or large chunks of wood. It has the advantage over all other furnaces in that respect. They manufacture a wrought iron adjustable eave trough hanger which, from its simplicity and ease of application, together with its durability, is pronounced by all to be the best eave trough hanger in the market. This hanger is used generally in Medina county, and is handled and distributed to the trade throughout the United States by five of the leading wholesale firms of Cleveland. They run a gang of men through the county and are ready on short notive to do slate, tin or iron roofing; tin or galvanized iron spouting. Also furnish and put in pumps.

OTTERBACHER, C. H., is a prosperous and leading farmer, who has resided in Liverpool township since his birth, April 19, 1861. His father, John Otterbacher, and his mother, Regina Bard Otterbacher, came from Germany and settled on the farm where C. H. now resides, in 1844. He received a common school education and took up the business of farming and stock raising, which he still follows with good success. He owns one of the finest farms in the township, consisting of 130 acres. John C. and Marian Gonder Fahrion, formerly of Germany, are the parents of Miss Emelia Fahrion, who was born in York township, December 15, 1854; and joined in marriage to the subject of our sketch December 3, 1874. To them four children have been born, three girls and one boy. They are both members of the Lutheran church, and Mr. O. is a leading republican of his township.

OVERHOLT, I. M., is one of the leading citizens of Seville. He has lived in Medina county all his life, except four years that he lived in Cleveland. His birth occurred January 11, 1856, in Guilford township His father, Henry Overholt, was born January 25, 1817, and his mother, Elizabeth Markley Overholt, March 4, 1827. For two years our subject served on the council of Seville village. He is engaged at present in the operating of a foundry and machine shop. He is one of the live business men of the village and is interested in all that tends to improve the welfare of the town. June 20, 1878, he was married to Jessie Dorsey, who was born August 25, 1860. She received her education at Seville. The fruits of this marriage are four boys. In politics Mr. Overholt is a supporter of the republican party.

PHINNEY, L. H., is one of the pioneers of Lafayette township, having come there with his parents in the fall of 1856. He owns a fine farm of ninety acres, has a good home and is recognized as one of the leading citizens of his locality. He was born in Oneida county, N. Y., July 23, 1833. His education is the best afforded by the common schools. His wife, who was Miss Caroline Row, was born August 7, 1845, in Vevay, Switzerland county, Ind., and was married to our subject in 1865. Two children have been born to them, both of whom are living. Mr. Phinney belongs to the Congregational church and Mrs. Phinney to the Baptist, and both are active church workers. Mr. P.'s portrait appears in this work upon the page of Lafayette citizens. They are one of the most prosperous and enterprising families of their township.

PHILLIPS, H. L., of York township, is one of the well known dealers in general merchandise at York Center. He carries a large stock of goods and makes his prices right to suit the times. He was born in York township January 25, 1847, and has always lived in the county. His education was acquired in the public schools of the township. He was treasurer of his township for eight years and postmaster during President Garfield's administration and held the office until May 8, 1893. His marriage to Miss Emily Hayes occurred March 17, 1868. She is a native of Hinckley township, this county. To them four children have been born, three boys and one girl. Mr. Phillips is a member of Medina Lodge No. 30, Royal Arch Masons. Politically he is a republican. He is again postmaster under the McKinley administration, having received the appointment the present summer.

PIERCE, E. T., of Lafayette township, is one of the prominent farmers and stock raisers of that part of the county. He can trace his lineage back through several generations to Abraham Pierce, who came to this country and settled in Plymouth Colony. E. T. was born on the farm he now owns and occupies, June 29, 1858, and has made it his home all his life. His father was L. M. Pierce, born July 20, 1810, in Hartwick township, Otsego county, N. Y. His mother before her marriage was Emeline Branch, born July 30, 1811, in Worthington, Hampshire county, Mass. Our subject was educated in the schools of York, Medina, and finished at Oberlin College. He is one of the trustees of his township and a member of the school board of York township. He is a successful farmer and stock raiser and gives considerable attention to the raising of sheep. He was joined in marriage October 6, 1881, to Miss Clara Barnhart, of Lafayette, Ohio, she having been born February 22, 1860, at Cedar Valley, Ohio. Her early homes were Wooster, Ohio, and Brooklyn, N. Y. She was educated in the schools of Brooklyn and Oberlin, Ohio. To this marriage four boys have been born. In politics Mr. Pierce is a supporter of the principles of the republican party.

PLATZ, EMIL F., was born in Saxony, Germany, October 7, 1856, and came from there direct to Liverpool township, arriving here July 18, 1881. His education was acquired in his native land. He was married to Miss Mary Glazier, June 10, 1876. She is also a native of Saxony, Germany, born January 6, 1854. They are the parents of nine bright children, all of whom are living at the present time. Mr. and Mrs. Platz are both active and valuable members of the Lutheran church. Mr. Platz is traveling salesman for Mr. Chas. Hoppe in placing his various brands of cigars on the market. He is a good business man, a good salesman, and is making his present line a success.

PARKER, C. H., is one of the leading farmers and business men of Liverpool township, where he began life April 20, 1836. After acquiring the education to be had in a country school of those days, he took up the business of farming and has followed it with success till the present time. He raises considerable stock and of the best breeds. His parents were L. B. and Mariah Hastings Parker. He has made his home in the state all his life and nearly all of the time on the old homestead. Mrs. Lucinda Lewis Parker was born in Columbia township, Lorain county, February 28, 1839. Her father, Jesse Lewis, was born in Connecticut, and her mother, Esther Gallup Lewis, in Rhode Island. Mr. and Mrs. Parker have but one child. Mrs. P. is a member of the M. E. church. Mr. P. is a supporter of the principles of the republican party.

PALMER, JAS. S., a farmer and stock raiser of Guilford township, first saw the light of day in Jefferson county, O., March 20, 1829. His parents were George and Alma Coulter Palmer. He moved to Medina county in the spring of 1851. His education, like most of those who lived in the country in an early day, was acquired in the old log schoolhouse. He served his township as trustee for six years with credit and ability. He takes a great deal of pains in the breeding of fine thoroughbred stock, and especially of Merino sheep. He was joined in matrimony to Miss Margery Grafton of Jefferson county, O., in the fall of 1850. To them was born one child, which has departed from this life. Mr. Palmer is a republican and does not miss an opportunity to express his choice at the ballot box.

PAYNE, WILLIAM, has been a resident of Spencer village since his birth, on the 15th of February, 1860. He acquired a good common school education, which has served him well as the foundation of a practical education gained in actual business life. He is the proprietor of the Hotel Payne and runs a fine livery and sale stable in connection. His rigs are first-class and up-to-date. He is obliging and courteous and spares no pains to please his patrons. His undertaking facilities are first-class, and both the goods he handles and the service he renders are in keeping with the latest and most efficient. He was treasurer of the township for six years and is the present constable. In 1882, December 7, Mr. Payne was married to Miss Rebecca K. Wood, and to them have been born two children, both girls. Fraternally Mr. P. is a Knight of the Maccabees, also of the I. O. O. F. Lodge. He was for many years a merchant at Spencer.

PARDEE, AARON, of Wadsworth, Ohio, is one of the oldest attorneys in the state, if not in the United States. He was born in Skaneateles, N. Y., October 8, 1808. He is the son of Ebenezer and Anna Minor Pardee, natives of Norfolk, Conn. Our subject is the youngest son in a family of ten sons and two daughters. He came to Wadsworth township with his mother when sixteen years of age, his father having died when he was four years old. They came overland in wagons. On his birthday in 1827 he was married to Eveline B. Eyles, daughter of Hon. Wm. and Polly Derthick Eyles, who were natives of Connecticut. To this union nine children were born, viz.: William, Henry, Charles, Don A., George, Evelyn S., Almira, Fanny and Elle. Mr. Pardee began the study of law in 1833 and was admitted to the bar in 1837, and soon after began the practice of law, which he still continues. He was elected to the state senate in 1850 and was re-elected under the new constitution and served till 1853. Under President Lincoln's administration he was appointed assessor of internal revenue, at the adoption of that law, serving in that office till 1866. He was the first man to fill the office of mayor of Wadsworth and has filled other village and township offices. As an official he has been capable, careful and efficient. As a citizen, honored, esteemed and respected.

PALMER, THOMAS. No farmer in the county stands higher and few stand as high in the estimation of the public as the subject of this sketch. Having been born on the farm he now owns in Lafayette township, December 15, 1839, he made the most possible of the limited educational facilities of the day, and to the education thus acquired has added much knowledge by reading and observation, until he is today a man of wide information, sound judgment and good business ability. Since 1884 he has taken an active part in the political campaigns, and, being a fluent and effective speaker, has made his influence felt throughout the county, and especially in the campaign of 1896. The thwarting of the plans of the free silver element and the large majority gained for the republican party was freely acknowledged to be largely due to his efforts. He has spoken in every voting precinct in the county with but one exception. At the election in 1887, he was elected to the 68th general assembly as representative for Medina county, and re-elected in 1889 as a member of the 69th. This office he filled with honor to himself and credit to his county. He was a prominent candidate for the nomination for county treasurer in the June republican convention of the present year, and, while his great service to the party was freely acknowledged, he still lacked a few votes of receiving the nomination. Mr. Palmer's ability is well known, and doubtless will be fittingly recognized in the not far distant future. He was married October 10, 1872, to Almira Henry, of Montville township, whose birth occurred March 10, 1841. She is the daughter of Robert and Almira Clark Henry. Our subject has followed the vocation of farming and stock raising all his life and now owns one of the largest farms in the county, which is pleasantly located near that beautiful body of water, Chippewa Lake.

PARMELEE, C. E., is one of the well known men of Medina county. He is the leading dry goods merchant of Lodi village, where he began business in his present location in 1881. He is a native of Liverpool township, born October 14, 1843. He received a common school education. In 1876 he was elected sheriff of Medina county, and gave such excellent satisfaction his first term that he was elected to a second term in 1878. He proved himself to be a capable and competent official. His store at Lodi is well filled with groceries, dry goods, boots, shoes, etc. His stock is very complete and first-class in all departments. He buys the produce from the farms and pays the highest market price. Mr. Parmelee has a large patronage and his many customers speak in high terms of the excellent treatment received at his store.

RANDALL, ANSON. Among the pioneer farmers of Medina county none are more favorably known than the subject of this sketch, who lives at present in Lafayette township. February 6, 1823, at Saybrook, Middlesex county, Conn., is the date and place of his birth. October 18, 1844, he took as his wife Elizabeth Jamison, who is a Canadian by birth and the daughter of Samuel and Sarah Long Jamison. She departed this life March 25, 1863, leaving five children. Mr. Randall's second wife was Maria Zimmerman, and she was born in Wayne county, O., November 25, 1829. Her parents were Samuel and Mary Patterson Zimmerman. The fruits of this marriage are two children. Most of our subject's life has been spent on the farm. For about sixteen years he was salesman of farm machinery through several counties. Besides general farming he has given much attention to the breeding of Spanish Merino sheep. He has served as justice of the peace and assessor.

RENZ, JOHN E. & SON, are the owners and proprietors of the largest harness store in Medina county, which is located in the village of Medina. Jno. E. was born in Liverpool township in 1838. His father died when he was eight years old, and when he was fourteen years he came to Medina and became an apprentice of John A. Rettig, to learn the harnessmaker's trade. He worked at the trade three years and then in 1856 he went to Cleveland, Ohio, to work for John Hazerott, and there found that he was not as good a workman as he wished to be, so he then worked under instructions for another year from one of the best harness makers in the city, C. Workmaster. By this time Mr. R. had become one of the best mechanics in his line in this part of the state, but about this time his health failed, and he returned to his old homestead, which he bought, and followed farming for one year, when he was offered the position of foreman by his old employer, Jno. A. Rettig. This he accepted and held till 1865, when he and E. Brenner formed a partnership and bought out Mr. Rettig. This partnership lasted twenty-eight years, when, December 17, 1893, he purchased the interest of Mr. Brenner in the stock and building, and has since with his three sons carried on the business. They carry a full and complete stock of harness and all other goods in that line, also pay cash for hides, pelts, etc. Mr. R. is known as being one of the best harnessmakers in the state. Honest and fair dealing has always been his motto.

John Taylor was born in Stark county, Ohio, April 12, 1820, and came to Lodi in March, 1845, just after his marriage to Hester Chambers of Seville. Mrs. Taylor passed from this life July 27, 1895, and Mr. Taylor, July 13, 1896. Thus more than half a century of their life was given to the improvement of Lodi. Our subject, A. B., was born at Lodi, July 12, 1846. His father had been president of the First National Bank of Lodi, while it did business previous to 1876. From 1876 to 1883 Mr. Ainsworth carried on the banking business of Lodi, when A. B. Taylor and his father succeeded him and began the present Exchange Bank, of which our subject is now the owner. This bank has done a good business from the start. The honesty, integrity and well-known business ability of the men who founded it, was a sufficient guarantee with the people to at once gain their confidence and patronage. Mr. Taylor was united in marriage to Mary J. Strong, who was born at Seville, Ohio, August 26, 1851. Mr. T. is one of the leading business men of the county and has done much during his life toward the elevation and advancement of his native town. He is president of and one of the principal stockholders in the Lodi Cemetery Association, which was organized in the spring of 1897. This organization purchased ten acres of ground overlooking the beautiful village of Lodi and laid out "Woodlawn Cemetery" which when completed will be one of the finest burial spots in the state of Ohio. In politics Mr. Taylor is a staunch republican.

The dwelling house is a large two story building well supplied with all the modern appliances, and from its location commands a view of a large scope of beautiful surrounding country. The out-buildings have been recently repaired and the little farm of thirty acres is well improved, furnishing the fruit and vegetables for those who are passing the declining years of their lives in this beautiful home. Admittance to the home may be secured by application to the trustees upon such terms as may be agreed upon by the parties interested. At the organization, the following persons were chosen as a board of trustees: President, C. E. Parmalee; Secretary, S. L. Dyer; Treasurer, A. B. Taylor; T. G. Loomis and A. G. Newton. Rachel Harris was born December 22, 1792, at the same place and died at Lodi, October 5, 1874.

THE LODI REVIEW, of LODI, OHIO, published by H. E. Bassett. This newspaper was established in 1886. A first-class job department is run in connection with the other office. The quality of the work done is guaranteed to be first-class.

THE O. C. SHEPARD CO. This firm was organized in 1872 by O. C. Shepard who continued the business until his death in December, 1893. The firm then changed to the present members, D. C. A general milling business is done in flour, feed, etc., and several well-known brands of flour are placed on the market which have a large sale. "The Magnificent," "The

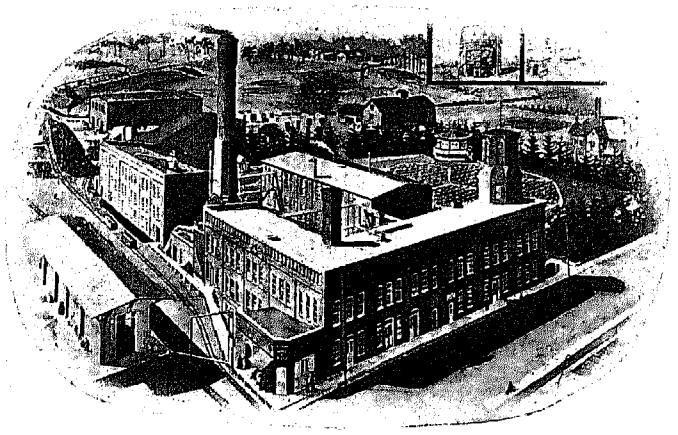

Splendid," and "Grandfather's Whole Wheat," flour are the leaders. This mill has the capacity of seventy-five barrels per day. In connection with the milling business the company conducts a well filled feed store on the west side of the public square where can be found all kinds of flour, feed, grain, field seeds, poultry supplies, baled hay and straw, and all other supplies found at a first-class feed store.

TOWSLEE, D. L. This gentleman began life on Washington's birthday, 1846, in Homer township, and was educated in the public schools of Harrisville township, where he still resides. His father, Hiram Towslee, was born November 10, 1821, and his mother, Mary Park Towslee, March 9, 1821.

Mr. Towslee is a thorough and practical farmer and a breeder of fine thoroughbred Jersey cattle and Yorkshire swine. He takes much pride in fine stock and always keeps the best in his line. He also handles musical instruments keeping Crown and Estey pianos and organs always on hand. He has held the office of assessor for two years, discharging the duties of that office with much credit to himself. In politics he is a democrat and believes in the coinage of silver and gold at the ratio of 16 to 1. Martha A. Finlay was born March 9, 1848, the daughter of Wm. and Sarah Furguson Finlay. She was married September 28, 1869, to the subject of our sketch. To this marriage have been born eight children, viz: Mary, Lorenzo, Sarah, Hiram, Rebecca, Martha, Juliet and George. Mr. T. is commander of Work Tent No. 219, K. O. T. M., of West Salem, Ohio.

THE A. I. ROOT CO.'S BEE-HIVE WORKS. In all parts of the civilized world where the habits of bees are discussed and their honey eaten, Medina easily takes first rank as the central or radiating point of all beedom. As illustrating what great results flow from apparently small causes, a short sketch of this establishment which, the year round, averages more than full time every working day of the year, and which is always "humming," like the little insect whose strange instinct has made such a hive of industry possible, will, we believe, be found to be of interest. It happened thus: In 1865 a swarm of bees chanced to pass overhead where A. I.

Root, the president and founder of this business, was working. A fellow-workman asked what he would give for them. He answered, "A dollar," little dreaming that the man would succeed in getting them. To his astonishment he returned with the swarm. With this as a nucleus he began the study of bees in earnest. In spite of the fact that some of his friends assured him that "bees didn't pay any more," and in spite of the usual blunders of a beginner, his apiary began to increase, and his enthusiasm developed into the unmistakable "bee-fever." In 1867, from 20 stocks he took the first thousand pounds of honey ever taken with an extractor, using a machine of his own devising, and increased to 35. In 1869 he extracted 6162 lbs. of honey from 48 colonies, and sold the product at 25 cents per pound. This capped the climax; and instead of being confronted with the old assertion that "bees didn't pay any more," inquiries came in thick and fast about the new industry—what kind of bees, hives, extractors, etc., to adopt, and where to get them. As the hives and other appurtenances were rude he saw no other way than to manufacture the implements he recommended. Correspondence and trade increased until it became necessary to issue a circular, not only to answer questions but to tell the people what and where to get their supplies. A windmill assisted by foot-power, furnished the motive force for the buzz-saws and hive-making. Soon these became inadequate, and a four-horse steam engine was called into requisition. The business began to grow at such a rapid rate that in 1876 Mr. Root was obliged to double his working force, and run night and day during the busy season. This he did for two seasons, when, in 1878, he purchased a lot near the depot. Here he erected a brick structure 40x100 feet, two stories and basement, and went so deeply into debt that every one said he would smash up. But in spite of these predictions of the pessimistic wise heads, the business grew, and another building was put up in 1883, fully equal to the first. The business has kept on growing until there are now six large structures, averaging 40x100 feet each, two and three stories high, with basements. The buildings shown in the foreground are substantially built of brick, with metal roofs. They are equipped with electric lights, steam heat, and automatic sprinklers. In each room will be found all the latest improved pieces of machinery, each designed for its special work. The main office alone is a room 40x60, with clerks and book-keepers to attend to the requirements of their customers far and wide. Four typewriters and as many stenographers, assisted by two modern phonographs, are kept almost constantly busy attending to correspondence. Besides the general office at Medina there are branch offices in Chicago, Philadelphia, St. Paul, Syracuse, Mechanic Falls, Me.; and besides these there are large agencies where the Root goods are handled extensively at Denver, San Francisco, Portland, Ore., Des Moines, Ia., Baltimore Md. and Wetumpka, Ala. These branch offices and agencies are supplied with goods by the carload, all manufactured at the A. I. Root Co.'s plant in Medina. In addition to these there are numerous smaller agencies scattered over the civilized world.

In 1897, although general depression in business circles was severe, the "Home of the Honey-Bees" far surpassed all previous records in the output of manufactured goods, running to its fullest and even crowded capacity from the first of the year up to the time of the present writing, the latter part of June; and since the first of April the roar of machinery has ben heard at this establishment all night as well as day. Visitors have been attracted to this place from all over the United States, and also from England, Scotland, Canada, Norway and other foreign countries. The goods manufactured at this factory literally reach the ends of the world—from hot Australia to bleak Russia and the Holy Land and South Africa. Correspondence is received continually in German, French, Spanish and Italian, with occasional sprinklings of Danish, Swedish, Bohemian and other tongues. A visit to the works will well repay the visitor, liberty to do which is freely granted by application at this office, where a guide will be furnished.

THE MEDINA BENDING WORKS, is now one of the flourishing enterprises of the village. It was organized in 1891, by Scott Bennett and Theodore Andrews. These gentlemen conducted the business for three years, when Mr. Andrews sold his interest to George Bauer when the firm was changed to Bennett & Bauer. In the spring of 1897 Mr. Bennett purchased the interest of his partner and is now the sole proprietor. The business has increased from the start until now it is one of the solid industries of Medina. He now manufactures single-trees, felloes, spokes, neck-yokes, etc., which are shipped all over the states. The custom department does general sawing, and he has lately put in machinery for furnishing flooring, siding, casings, mouldings, etc., both in hard and soft woods. Mr. Bennett buys much timber, especially oak and hickory and is always ready to pay the highest market price for first-class timber.

E., is a native of Chatham township, where he now resides, having been born there October 1, 1861, and remained in the township until the spring of 1886, when he went to Nebraska, and remained eight years, returning then to Chatham. His education was acquired in the common schools and the high school of Chathan. His parents, Whiting and Margaret Treman, came to this county in 1833 and settled on the farm now owned by our subject and lived there until their death. October 31, 1895, Mr. Tyler was married to his second wife, Mrs. Lucia L. Cunningham, who was born in Tallmadge township, Portage county, July 18, 1830.

VANDEUSEN, O. O., the present clerk of courts of Medina county, is a native of the county, having been born in Hinckley township, September 13, 1855. He received a common school education, working on the farm when not in school until the age of eighteen, when he began teaching school. This he followed for twenty terms, teaching winters and working on the farm summers. As a teacher he was known as a thorough success, forming the habits which have made him so efficient and popular in the office he now holds. November 3rd, 1880, Mr. VanDeusen was married to Miss Jessie Conant, who is also a native of Hinckley township, and to this union have been born two children. In the summer of 1893 Mr. VanDeusen was nominated for the office which he now holds after one of the most spirited contests ever known in a convention in this county. It took over thirty ballots to reach a nomination, but time has shown that the convention made no mistake as he was heartily endorsed and re-elected for a second term in 1896. He is affable and courteous both as an official and a citizen and stands in high esteem by all who know him. He is the owner of a good farm in Hinckley township and still takes much interest in the affairs of that locality. Fraternally he is a member of Hart Council No. 285, K. & L. of S., and takes an active interest in the welfare of the order.

VANDEUSEN, NEWMAN L., farmer and fruit grower of Hinckley township, was born in that township February 19, 1847. He passed his youth assisting his father on the farm and attending the district school, where he acquired a common schol education. After four terms in Baldwin University, he took the business course in that institution, receiving his diploma in the spring of 1869. The following spring he went to Benton county, Iowa, remaining till December when he went to Wichita, Kansas, where he joined a party of about a dozen men who were going on a buffalo hunt, in the wilds of southwestern Kansas. The sixth day out a few of the noble animals were seen and the next day plenty were found. The weather was warm and pleasant in the forenoon but in the afternoon it suddenly changed to one of those terrible blizzadrs for which the west is famous, and for three days it raged with unabated fury. It was only by hard work and careful preparation that they kept from freezing to death. On the fourth day they succeeded in digging out of the snow and making their way back to Wichita, which required about five days more. Each one of the party was frozen more or less and nearly exhausted by hunger and fatigue. Remaining a while at Wichita he returned to Hinckley, reaching there in February, 1871. For six years after attaining his majority he assisted his father on the farm and taught school in the winter. For four years more, in company with a brother, he rented his father's farm. While engaged in teaching he met Miss Emma G. Barber, of Strongsville, Cuyahoga county, to whom he was married December 23, 1876. She was born at Rockport, Ohio, May 11, 1852. This union has been blessed with two children, Clarence E., born June 18, 1878, and who is now attending Baldwin University, and Arthur Clyde, born September 18, 1885. the culture of small fruits, and raising plants for sale, in both of which he has been very successful. He produced last year seventy bushels of strawberries, eighty-seven of raspberries, thirty of blackberries, twenty of gooseberries and thirty-six of currants, also over six tons of grapes.

He has been honored by his townsmen by several offices of trust, such as assessor, treasurer, justice of the peace and member of the school board. As justice of the peace he was a peace-maker and did much toward settling disputes without litigation, working more for the good of men than for money. He is a prominent citizen of his township and a stanch republican, a charter member of the Hinckley Grange and for several years has been its secretary. He is strictly temperate, using neither intoxicants or tobacco. He is a consistent member of the Disciple church in which he holds the office of clerk, treasurer, deacon and trustee. He discharged the duties of that office with honor to himself and credit to his township, and in the spring of 1897 he was elected to a second term.

WARNER, JOHN S. Mankind being ever anxious to change the natural condition of things affords the subject of our sketch an opportunity to gratify the wants of Medina people with satisfaction to them and profit to himself. When it is cold they want it warmer, and so he furnishes them coal. All grades of hard and soft coal at prices very reasonable. When it is warm they want it cooler, so he supplies them with first-class ice at prices to suit the times. His customers in the west end of town he supplies from his office at the C. L. & W. Ry. depot. And to those in the east part he delivers from his location at the N. O. depot. Mr. Warner was born in Preble, Portland county, N. Y., November 29, 1849, and came to Medina in 1872. For the first three years he was with the O. C. Shepard Co., in the milling business, then entered the firm of Smith & Warner in the manufacture of sash and blinds and the operating of a planing mill. At the end of three years he disposed of this business and entered the employ of the A. I. Root Co., as manager of the manufacturing department of that institution, and remained with them for eighteen years. His ability as a manager is well known and he has been one of the substantial men in the building up of the town. His present business was first established in 1894.

WALKER, J. B., the popular and well known druggist, of Seville, was born in Milton township, Wayne county, Ohio, June 23, 1855. He acquired the education to be obtained from the common schools. In 1878 he came to Seville and began working in a drug store for C. A. Stebbins, remaining with him three years, when he sold out to Mr. Buell, with whom he remained two years. Mr. W. then purchased a half interest in the business which partnership continued for about a year, when Mr. Buell sold his interest to Mr. Loomis and the firm of Walker & Loomis continued for a period of three years, when Mr. Walker purchased the interest of his partner, and in the fall of 1895 erected his present store, one of the finest blocks in the village, situated on the corner of Main and Center streets, a very desirable location. His store is finished in oak and has all the modern improvements. His stock is complete, and prices are made to suit the times. His customers are always sure of courteous treatment and fair dealing.

He afterward spent one year in Baldwin University. He was elected to the office of county treasurer in November, 1893, and gave such universal satisfaction that he was reelected in 1895. He is the owner of a fine farm just south of Leroy, in Westfield township, where he worked in summer and taught school during the winter for a number of years previous to his election to his present office. He taught twenty-three terms of school. He has filled the office of township clerk and justice of the peace, with credit to himself and satisfaction to his constituents. WARREN HOUSE, LODI, OHIO. This well known and popular hotel is one of the best in its class in the county. It is up to-date in all of its appointments and is having a first-class trade, which speaks well for its genial proprietor, Mr. W. N. Firestone. This gentleman was born May 12, 1847, in Pennsylvania, and came to Ohio in 1869, locating in Burbank, Wayne county. In 1895 he leased the Warren house and his constantly increasing patronage is a safe guarantee that he understands the hotel business. Ira B. Firestone, the son of the proprietor, acts as clerk and takes an active interest in the management, and much of their success is due to his efforts. The rates are $1.50 per day which is reasonable for the accommodations offered.

Mr. Wells is a member of the famous Medina Male Quartet, well known throughout the state, having sung at many republican conventions and rallies in various parts of the United States. Isaac Wells, the father of our subject, was a native of New York, and Betsy Stanford Wells, his mother, a native of Vermont, and came to this state in an early day. Mr. Wells is a native of Ohio, having been born at Creston, Wayne county, March 21, 1852. His education was completed in the high school. In 1872 he was married to Miss Ettie Peake, who was also a music teacher. To this union have been born five children, one of which, a son, died in infancy. Politically Mr. Wells is a staunch Republican, and as such was elected sheriff of the county for two successive terms.

WEIDNER, F. W., is one of the many first class citizens of this county who are of German extraction. His father and mother, Charles and Christina Wertwine Weidner, were both born in Germany, the former in 1831, and the latter in 1841. Our subject, F. W., was born in Liverpool township, December 16, 1854. He attended the district schools and acquired the education afforded by such schools. He is engaged in farming and stock raising, and also conducts a threshing machine business in company with his brother Henry. On February 19, 1882, he was married to Miss Catharine Schneider, a native of Liverpool township, born January 11, 1861. To this union four children have been born, one boy and three girls. Mr. and Mrs. Weidner are both members of the German Lutheran church. They are respected and esteemed by a wide circle of friends.

After the completion of a common school education he followed farming and has given considerable attention to the breeding of fine road horses. Being naturally of an inventive nature he has put his natural ability in that line to good use in the planning and constructing of "The King" wind-wheels. After examining various machines for the utilization of wind power, he saw their many defects and many excellent qualities. In the construction of "The King" he has eliminated the objectionable features and combined the desirable ones with some new and original ideas of his own, thus making a machine far superior in simplicity, utility, durability and ease of operation. Mr. Weidman is giving his attention to the construction of these wheels and thus he knows that every part is made right. He has abundance of testimony from those who are using the mills, that they are all that he claims for them. Long live "The King."

After leaving school he learned the jeweler's trade, and became a very proficient workman. He also took a course in the study of optical science, graduating in Cleveland in 1889. He now makes the sale of optical instruments a leading specialty in his business. Locating in Lodi where he still does business, he at once took a leading place among the business men, and has by industry, perseverance and fair dealing, established a good trade and won the confidence and respect of his many customers. He is a native of Savoy, Berkshire county, Mass., born April 9, 1832. He came to this state in September, 1842. He married Susan, daughter of Barney and Mehitable Daniels, July 10, 1856. She was born in Plainfield, Hampshire county, Mass., February 2, 1832. Mr. Whitman has filled numerous offices of responsibility and trust. He has been township clerk five years, trustee six years, and justice of the peace for the remarkably long term of thirty-six years. All of which he has filled with marked ability. His son Eugene N. is now attending to the farming under his direction. They are thrifty, energetic and prosperous farmers.

WIGHTMAN, CHAS. D., is well known as one of the leading attorneys of Medina county where he has resided all his life. He first saw the light of day in Lafayette township, November 25, 1866. In 1882 he graduated from the Medina high school and the same year entered college at Adrian, Mich., where he graduated in 1889, receiving the degree of B. S. He began the study of law with Codding & Hayden, and after the death of Hon. C. G. Codding he continued with Geo. Hayden until he was admitted to the bar in 1893. He is a native of Walworth, Wayne county, New York, where he was born September 13, 1825, and came with his parents when eight years years of age to Montville, this county, where he resided till 1857, when he came to Granger. On the 15th day of Jan., 1850, he was joined in the bonds of matrimony to Miss Mary Faulkner, whose birth is recorded as April 13, 1819. To this union were born five chil-

dren. On August 28, 1885, Mrs. Wilbur gave up this mortal life and passed to that which is beyond. January 6, 1887, Mr. Wilbur was united in marriage to Helen Archer, of Hillsdale, Mich., who was born there March 16, 1848. Mr. W., is one of the reliable pioneer farmers of Granger township who have turned the wilderness into fine and prosperous farms and made them homes for themelves and future generations.

WILBUR, FRANK L. Among thoe who have always lived in Medina county, none are more favorably known than the subject of this sketch, who was born in Montville township on the 14th day of November, 1852. As a farmer in Granger township he has given careful attention to the details of the work and finds beyond a doubt that a farm well tilled always pays. He has been township trustee two years and constable six years. His education is such as was afforded by the common schools of the county. Mr. Wilbur is a member of the Patrons of Husbandry, and of the Knights of the Maccabees, in both of which he is an active member.

WILBUR, EUGENE C., is a well known farmer and stock raiser of Granger township. Following the motto that a thing that is worth doing, is worth doing well, he has made his present business a thorough success. His education wa received in the common school during his early years, and afterward pursued Normal school at Mansfield. To this he has added the practical education of a successful business life. He was born October 7, 1857, in Granger township, the son of Oscar F. and Mary Faulkner Wilbur, both of whom were natives of New York. He was married, October 25, 1883, to Miss Kittie Mann, who was born in Medina township, February 4, 1861, and to this union two children, a boy and a girl, Meade E. and Mary E., have been born. Mr. W., is a prominent member of the board of education, and of the Patrons of Husbaudry. He held the office of the justice of the peace in his native township for six years, and spent considerable time teaching in the country schools both before and after his marriage.

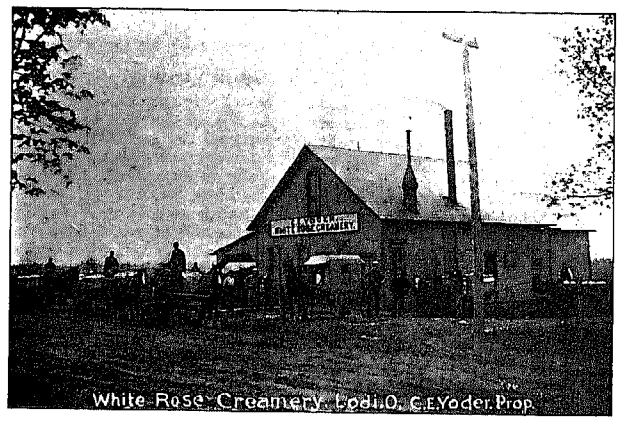

WILKINSON, CALVIN, the well known and popular dealer in carriages, wagons and agricultural implements, at Bennetts Corners, Hinckley township, is one of the well known and popular residents of that township. He has built up a large trade in his line and sells only goods which stand the test of use. He was born on the farm that he now owns on the 19th day of June, 1841. Thus over half a century has been passed by him as a resident of that locality.

WISE, JOHN, son of Peter and Christeana Grove Wise, was born two miles south of West Salem, Wayne county, on New Year's day, 1832, and has always lived in this state. He now lives in Harrisville township and carries on the business of farming. His parents settled in this state about the year 1826. His educational advantages were such as were afforded by the public schools. He raises considerable stock, especially Holstein cattle, of which he ownes one of the finest herds in the county. He is a member of the Masonic Fraternity. He was married to Miss Eliza J. Pittinger, who is a native of Chester township, Wayne county, June 7, 1859. They are the parents of six children, three girls and three boys.

WILLEY, ALANSON, G., M.D., is one of the well known and highly respected pioneers of Medina county, where he has resided since March, 1833. He began his life at Morgan, Ashtabula county, Ohio, January 28, 1821. His parents were Merrells Willey and Charlotte M. Beach, the former born in Hartford, Conn., August 14, 1798, and the latter in Genessee county New York, May 14, 1803. His early education was begun in Morgan, in an old weather-beaten old fashioned log school house, with its big fire-place at one end, giving the pupils the two extremes of heat and cold. His district school education was finished in an old log cabin, with poor benches and poorer light. The remainder of his literary education was acquired by a few terms in the Octagon Academy, of Wadsworth, under the excellent teaching of John McGregor. In the autumn of 1843, he entered the office of Drs. Geo. K. Pardee and C. N. Lyman and took up the study of medicine, his chosen profession. In the fall of 1846 he entered the medical department of Western Reserve College, at Cleveland, and returned to Wadsworth in the spring where he married Miss Mary W. Brown, March 14, 1847. To this union was born one beautiful baby girl, who died at the age of one year and ten months. Her mother was called from this life September 30, 1875. She was a lovable and accomplished woman, and to her the doctor attributes much of his success in life. A few days after his marriage he moved to Spencer, this county, and in company with Dr. Henry Warner, began his professional life. In the fall of 1848 he returned with his family to Cleveland and attended a course of lectures, receiving his diploma as Doctor of Medicine February 29, 1849. He returned in the spring to Spencer, where he has been in continuous practice, for half a century, of the most honorable profession in the world. In their married life Dr. and Mrs. Willey adopted three orphan girls named respectively, Hattie A. Peck, Minnie and Belle Willey. All of whom are married and have families of whom he is proud. The Doctor, who is now in his seventy-sixth year, is doing a light practice. In appearance he is tall, with beard and hair white. He is quite active and has a welcome word for all with whom he meets. He is hopeful, cheerful, and charitable toward all who differ with him. In politics he is a Free Silver Democrat. He has held the office of township clerk for fifteen years, is a member of the Masonic fraternity up to the Knight Templar degree. His library is one of the finest and most complete private collections in the county, and this with his comfortable home, he hopes to enjoy for several years more. He has had the honor to have his name placed on the Democratic ticket for State Representative and on the district ticket for State Senator, but strange to say, in these strongly Republican precincts he failed to get votes enough to elect him.

WHITE, LEE C., is on of he largest real estate owners as well as one of the best known and most prosperous farmers in Litchfield township, where he was born, on the farm he now owns, June 23, 1842. His parents were Daniel and Abigal White the former born January 19, 1805, and the latter in July, 1806. Mr. W., attended the district and select schools of his locality, finishing in his twentieth year. He was married November 10, 1869, to M. L. Cummings, of Vermont, who was born January 24, 1850. She received her education at York and Oberlin. To this union were born three boys and two girls, the youngest dying in infancy. Mrs. White was called away from earth November 19, 1882. Mr. White was again married January 26, 1888, to Louisa Myers, of Spencer, and to this marriage one child was born. Mrs. White departed from this world February 17, 1890. Daniel E. White, the son of our subject, was born March 14, 1879, at his present home, and since completing his education in the district school in his fifteenth year, has assisted his father on the farm. Our subject does some agricultural farming, but his special attention is given to stock raising, especially that of cattle and sheep. He has been a strong adherent of the Prohibition party, and in the present division of that party he joins with the broad gauge wing.

YODER, CHRISTIAN E., of Lodi, Ohio, is one of the representative business men of Medina county. Although he has not yet reached the meridian of life, he stands well up with the older business men of the county. He was born February 19, 1868, in Wayne county, Ohio. When he was three years old his parents moved to Logan county, Ohio. His father was Christian K. Yoder, born in Mifflin county, Penn., March 2, 1829. His mother was Catherine Plank Yoder, born October 13, 1830, in the same place. They came to Ohio, about the year 1835, and located on a farm near Smithville. Our subject, C. E., began work in a creamery at the age of twenty-one years at Smithville, at a time when little was known of the separators, creameries being operated by the cream gathered system. He was later employed in a creamery at West Liberty, Ohio, and afterward leased the same factory and put his whole time to the management and study of the business. Having determined to establish a factory of his own, he decided upon Lodi as the place, and it has proven a wise selection as the business has grown until now the White Rose Creamery of Lodi, Ohio, a cut of which appears above, is doing as large a business as any factory in the state. In the spring of 1897 he established a plant at Creston, Ohio, which is also doing a good business. On January 4, 1893, he was married to Viola Emery, daughter of J. W. and Melissa Emery, of Champaign county, Ohio. To this union one daughter, Bertha Marie, was born December 13, 1893. Mr. Y., is a supporter of the principles of the Republican party.

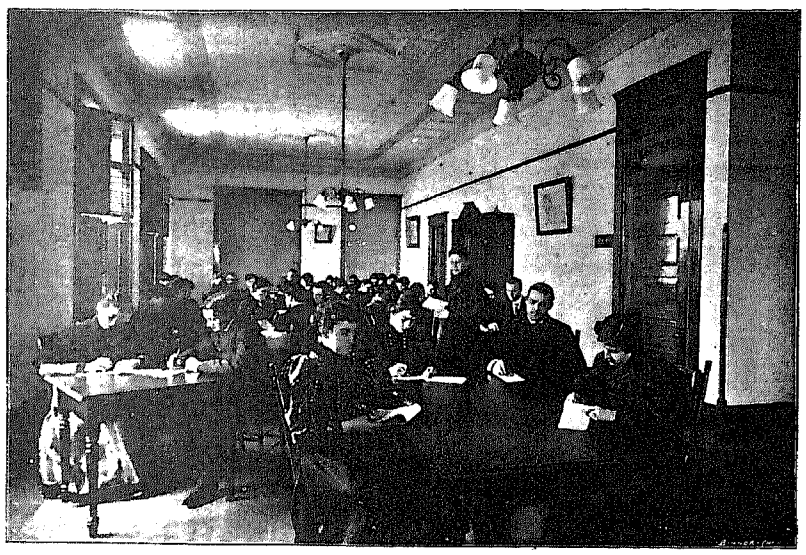

YODER, N. N., is one of the well known, reliable business men of the county. His birth occurred January 11, 1850, in Mahoning county, Ohio. He is the son of Abraham and Elizabeth Nold Yoder, the former born in Bucks county, Pa., in 1818, and passed from this life September 8, 1888, at the age of sixty-nine years. The latter was born in Columbiana county Ohio, in 1823, and is still living. Our subject, N. N., came to Guilford township, this county, and located there in 1875. His education was acquired in the Mahoning county schools after which he taught school one term. He is engaged in farming and stock raising, and is also a member of the well-known firm of Yoder Brothers, the popular shoe dealers of Medina. Mr. Y., gives special attention to the breeding of fine coach horses, and is part owner of Cayota, the fine Cleveland Bay Coach stallion. He has held the office of county commissioner for two terms, been township trustee and is at present a member of the township board of education. As an official he is thorough, capable and popular. His marriage to Miss Susannah Overholt, who was born in Medina county, February 3, 1852, occurred April 1, 1875. To them five children have been born, four boys and one girl. Mr. Yoder is a staunch Republican. Mr. and Mrs. Y., are both members of the M. E. church.

YODER BROTHERS. No firm is better known in Medina county than the above named firm, which consists of P. N. Yoder, of Medina village, and N. N. Yoder, of Guilford township. They have a full and complete line of boots, shoes, rubbers, slippers, etc., in fact everything that goes to make up a complete stock in their line. Their large store has just been remodeled and furnished with all the modern improvements and is now one of the best and most commodious shoe stores in the county. People doing buiness with them will always be treated with courtesy, and the prices and quality of goods will always be as represented. P. N. Yoder of the above firm was born at North Lima, Mahoning county, Ohio, December 7, 1858, the son of Abraham and Elizabeth Nold Yoder the former born in 1818, and the latter in 1823. Our subject, P. N., received his education in the public schools of North Lima. He was married on December 14, 1882, to Miss Mary M. Smith, a native of Medina, who was born July 3, 1857. She is the daughter of William and Susan Porter Smith. To this union four children have been born, three girls and one boy, all of whom are now living. Mr. Y., is Past Noble Grand of the I. O. O. F.

ZIMMERMAN, W. H. The subject of this sketch was, until recently, the proprietor of the Union Hotel, of Medina, which has long been known as an excellent place to refresh and satisfy the inner man. His arrival on this mundane sphere was September 21, 1843, in Tuscarawas county, Ohio. He attended the common schools and after the academy. The first business venture of his life was conducting a hotel in Grand Rapids, Mich., where for five years he continued in business and then came to Medina in 1872, and for three years was employed in the American House. He then moved to Van Wert, and thence to Cleveland, where he remained three years. Returning to Medina county, he engaged in farming for about three years, when in 1886 he was appointed superintendent of the county infirmary, which position he held for ten years, discharging the duties of that office with credit to himself and satisfaction to the people. In March, 1897, he leased the Union Hotel on South Court street, which he conducted until September 1st., of the same year, when he transferred his lease to Mr. Gish and engaged with the Champion Machine Co., as agent for the sale of their machinery.

TYPEWRITING DEPARTMENT.

THE publishers of this ATLAS are delighted to be able to present to the citizens of Medina County some views of what is conceded to be America's best equipped Business College.

One of the most magnificent buildings ever erected and fitted up for such a college has recently been completed, some views of which we take pleasure in presenting to the readers of this work, on this and the opposite page.

Young people, not only of Ohio but of the entire country, are to be congratulated that in a college community like Oberlin, combining the luxuries and conveniences of a city with the economy and healthfulness of the country, such advantages are to be secured; and it is not surprising with such an able management of representative business and professional men that a great Business College has been built up in Oberlin, and that annually, in increasing numbers young men and women fitting themselves for business and office positions are going to Oberlin for their training.

We would suggest that young men and women of Medina County, who think of entering such a school, write to Oberlin for information before selecting a College.

THE NEW BUILDING.

THIS fine two-story brick structure, erected for the Oberlin Business College at a cost of $20,000, was completed in January, 1896. With steam heat, electric lights, corrugated steel ceilings, buff sandstone trimmings, and woodwork finished in natural oak, this is one of the most elegant buildings ever erected and fitted up especially for a business college, while this is one of the few business schools occupying a building erected for its especial use.
