INTRODUCTION

I have tried to do this as accurate as humanly possible but I know that between the eye, the pen and the typewriter, there will be a few mistakes. Some names are obviously misspelled but most of the time I copied the names as I found them. Please check all conceivable and inconceivable spellings. For instance; Ohl might be Uhl - Kelmuth might be Helmuth - Carbaugh might be Harbaugh - Goll could be Doll etc. A few mistakes were made in alphabetizing but the names left out have been added at the bottom of the same page. No attempt has been made to differentiate between two or more families with the same name. For example; all John Millers are listed in one entry. In the 1907 Atlas there is a map of Millersburg between page 34 and 35 and this page is designated in the index as M.

I felt there was a need for an every-name index to the reprint of the 1875 and 1907 Holmes County Atlas so during the winter of 1980 I listed all the names and during this past winter (1981) I did the typing. I hope this will be of help to anyone using the Atlas.

Doris Keller McClelland

The 1875 Atlas index goes from page 2 to 34. The 1907 index begins on page 35.
