Ohio Cup Festival

This weekend, the Ohio Village Muffins and the Lady Diamonds will host the Ohio Cup, the premier annual base ball festival. The Ohio Cup features 30 teams from around Ohio and the Midwest including Michigan, Indiana, Illinois, Minnesota, Missouri, New York and Pennsylvania. The two-day event features exciting games with each team playing 3 games per day in a timed event on 4 different fields, including the Ohio Village field.

The Ohio Cup is the largest gathering of small-town base ball teams in the country, and they come together for one reason: to celebrate America’s pastime the way it was meant to be played.

Festivities will start at 6 PM on Friday and continue Saturday and Sunday until a champion is declared.

Labor Day

An Annual Celebration of Workers

As America has enjoyed the benefits of its Industrial Revolution over the last few years, the average American worker has worked 12-hour days and seven-day weeks in order to eke out a basic living. Despite restrictions in some states, children as young as 5 or 6 toil in mills, factories, and mines across the country, earning a fraction of their adult counterparts’ wages. People of all ages, particularly the very poor and recent immigrants, often face extremely unsafe working conditions, with insufficient access to fresh air, sanitary facilities, and breaks. As manufacturing has increasingly supplanted agriculture as the wellspring of American employment, labor unions, which first appeared in the late 18th century, have grown in number and influence.

Populists, Progressive Democrats, and Progressive Republicans Join Forces

Their Plan to Make America Better

In an effort to cope with the ever-changing world created by industrialization reformers have called for liberal means to achieve conservative goals. These reformers want the idealized America of the past that was characterized by democracy and equal opportunity for all. In general, they would like a better life for all. How is that to be achieved? Society has changed since the Civil War and the government needs to adapt to a new role. It should take the lead in curbing corporate privilege and limiting the power of the few. In other words, create a level playing field. The way to do that is by putting the government back in the hands of the people. More democracy can be the cure for many of the country’sills. The Australian (secret) ballot is one way to accomplish this. Since Massachusetts first used a secret ballot in 1888 it has spread to several other states (including Ohio) with much success. Now it is time for the entire nation to embrace this idea.

Ohio News Items

Gathered by telegraph from all parts of the state.

All counties south of Franklin: Warm and showery weather prevailed. Wheat and oat crops predicted to yield medium harvests this summer. Corn looking to be splendid.

Marietta—At half past six, Mr. Josiah West while driving his horse home from water, had the misfortune to break his ankle. Just as the horse was returning to the stable it slipped and fell, catching Mr. West underneath. His left ankle was badly broken.

Belleville—In the jam and crowd at the Union Depot yesterday afternoon Miss Mollie Flesher of Williamstown, fainted. She was carried into the baggage room and Dr. Willis summoned. At last reports she was much better.

Westerville—Another Ohio town has decided to convert to electricity. All oil lamps in the town have been done away with and the streets are now lit by electric lights.

Cont’d from page 1 Populist

Allow people to vote their conscience free from the watchful eye and pressure of a boss or union leader. Through a direct primary the voters, rather than the bosses, would nominate each party’s candidates for office in the general election. Through the use of referendums and initiative petitions the voters could directly propose or reject new laws. With the use of recall elections the people would have the power to remove corrupt politicians. An amendment to the constitution could also allow the people to directly elect their US senators and take their selection out of the hands of the rich and influential. Another amendment could greatly expand the participation in the electoral process by allowing women to vote. Reformers from both parties are joining together to try and forge a better America by pushing for many of these changes as we move into the 20th century.

Stabbed in the Back

Then Vanished in the Darkness Did a Murderer

Bert Williamson, a boy of 18 years, has eluded for two days a posse of determined men who have been scouring the southwestern part of the county for him. He is wanted for the murder of James Mitchell, a much older man. The crime occurred Saturday night last at the platform dance near Whitehall. The two had long been enemies and met by chance on the platform in the midst of the dance. Williamson drew a Bowie knife and stabbed Mitchell four times in the back, finally stabbing him in the neck and almost severing his head from his body. Mitchell died instantly. Williamson sprang into the darkness as soon as he saw his victim fall and has thus far eluded the posse.

Local News Items

Miss Vivian Turner and Marshal Harold Morgan were seen walking arm-in-arm down Third Street in the middle of the day. It did not seem that Miss Turner had committed any crime, but further investigation may be warranted. Next Monday the town council will meet at 7 P.M. in the town hall. The public is welcome to attend. Refreshments will be served.

Next Tuesday the School Board will meet in the schoolhouse. Funding issues will be discussed. All property owners are encouraged to attend.

Sugar Social Winners

Many villagers and guests shared in the fun of our monthly Sugar Social last Saturday. The winners were:

1st place: Mr. Doughtery’s chocolate cake with raspberry glaze
2nd place: Miss Barrington’s pound cake
3rd place: Mrs. Taylor’s maple apple pie
4th place: Marshal Morgan’s madeleine cookies

Congratulations to these local patissiers. The real winners here may have been the judges. This was the last social for the season.

Two Canines Wed

The Strangest Wedding ever held in Ohio Village

On Sunday about 60 guests assembled in the Town Hall, to witness the marriage ceremony of two canine residents of Ohio Village. JD, a seven-year-old Chihuahua was the blushing bride, and Otis, a two-year-old Pug made a very handsome groom.

The Town Hall was handsomely decorated with fresh flowers and greenery. The ceremony was performed by Mayor Hiram Laidlaw and took place under an arch in full bloom of flowers. The bride was becomingly dressed in ecru silk with pearls and a veil, the groom handsome and dignified in a tuxedo with tails. Mrs. Jennifer Rounds, mother of the bride, was matron of honor and Mr. Bill Wurst acted as groomsmen. Miss Cora Auerbach was the little flower girl, and Master Joey Auerbach made a dignified usher. The wedding march was rendered by Miss Priscilla Hewetson. Afterward cake was served to all guests, canine and human. This wedding is a local response to the influence of the French, who have been reported to hold fancy weddings for their canine companions quite often, as reported in the Telegraphic Advertiser issue of August 3rd. If Paris can do it, so can Ohio Village! Some might be tempted to complain of the cost in time, money and labor for something so ridiculous as a dog wedding, but anyone who saw these four-legged friends walking down the aisle and kissing on command had no doubt it was money well spent. Many guests commented on the loveliness of the ceremony, and even chaffed a few of the human guests, warning them in the future they might be held to equally high standards for their own weddings!
American House Hotel
For Men and Women travelers. Rates $1 to $2 per night.
One meal and all conveniences included.

To the Editor:
In the August 17th edition of your newspaper, I read with interest the well written column by our distinguished Marshall, Harold Morgan. I applaud his stance against the Anti-Saloon League, but I do so for different reasons.

At present, I do not know which members of the H&P Women’s Club belong to that League. I am not even aware of an active chapter of the League here in the Ohio Village. If indeed some of our members belong, they have wisely been quiet about it.

Most members of our study club believe strongly in Women’s Rights in general and Women’s Suffrage in particular. I think I am safe in saying that the majority of our members feel that if we are to be taken seriously by the gentlemen of our Village and our State, we do not want to align ourselves officially with causes other than our publicly stated views on Women’s Rights.

Temperance is another matter altogether. I believe I speak for most of our members, by saying that, at this time, we are not eager to alienate the gentlemen of our community by equating our stated goals with those of people who would prohibit the sale of alcoholic drinks. In fact, I have not noticed an increase of abuse of alcohol in our Village. If a problem arises, I trust Mr. Morgan will handle the situation in the best way possible. Thus, I believe that for most women of the H&P, the immediate need for equal rights for women, supersedes all other causes at this time. Therefore, Mr. Morgan, rest assured that as a club, we will support the due process of law and trust in your ability to uphold it.

Madeleine Laliberté, member and president of the H&P Women’s Study Club.

Fantasies
of Flight

For many centuries, humans have tried to fly just like the birds and have studied the flight of birds. Wings made of feathers or light weight wood have been attached to arms to test their ability to fly. The results were often disastrous as the muscles of the human arms are not like a bird and cannot move with the strength of a bird. In the past few years several pioneers have come as close as man ever has to this dream. German engineer, Otto Lilienthal, studied aerodynamics and worked to design a glider that would fly. Otto Lilienthal was the first person to design a glider that could fly a person and was able to fly long distance. Otto Lilienthal was killed when he lost control because of a sudden strong wind and crashed into the ground.

Samuel Langley was a physicist and astronaut who realized that power was needed to help man fly. Langley conducted experiments using whirling arms and steam motors. He built a model of a plane, which he called an aerodrome, that included a steam-powered engine. In 1891, his model flew for 3/4s of a mile before running out of fuel. Samuel Langley received a $50,000 grant to build a full sized aerodrome. It was too heavy to fly and it crashed. He was very disappointed and he gave up trying to fly. Octave Chanute is a successful engineer who has undertaken the invention of airplanes as a hobby, after being inspired by Otto Lilienthal. Chanute has designed several aircraft, the Herring - Chanute biplane has been his most successful design. Octave Chanute published “Progress in Flying Machines” in 1894. It gathered and analyzed all the technical knowledge that he could find about aviation accomplishments. It included all of the world’s aviation pioneers. Now it is reported that two brothers in Dayton, Ohio are building upon the knowledge accumulated by these early pioneers to attempt their own quest for manned flight. Orville and Wilbur Wright, operating out of their bicycle shop, have been doing their own experiments with different glider designs. They feel that they have made sufficient enough progress that they are planning to go to Kitty Hawk, North Carolina in the next year or two to experiment with full-scale gliders. This location was chosen because of the constant winds that blow off the ocean there. This wind will be necessary in order to lift the large glider into the air. This will be very dangerous work. It is this silliness worth the risk as men attempts to achieve his dream of flying like a bird. As some have said, “If man were meant to fly then the good Lord would have given him wings.”

“Imperialism”
By Vincent Howard

Lo, ye are weak and ignorant,
While we are strong and great;
And so, in Christian Charity,
We’ve come to rule your State.
We’ve come to criticize ye, and
We’ve come to teach ye pray.
Bow down, bow down, ye savages,
Or else we need must slay.
