

Ohio History Service Corps Member Recruitment Frequently Asked Questions

Thank you for your interest in the Ohio History Service Corps. The Ohio History Connection created the Ohio History Service Corps to help local organizations put history to work in their communities. Partnering with local history organizations, the Ohio History Connection places 10 AmeriCorps members in communities across the state.

Ohio History Service Corps (OSHC) members serve as Local History or Community Surveyor members to promote, raise awareness of, and preserve Ohio's strong history through organizational capacity building, creating educational experiences for community members, and promoting economic development through preservation activities.

Members will receive training in areas such as (but not limited to): volunteer management, meeting facilitation, fundraising, collections digitization, community mapping, historic preservation and historic property surveying, and heritage tourism/community-based economic development. They will also attend one statewide conference, which can include the Ohio Local History Alliance annual meeting and regional meetings as well as the Heritage Ohio conference. They will also participate in designated National Days of Service and AmeriCorps Week. There is also a possibility of being called to volunteer during a natural disaster or other community emergency.

This program is available to all, without regard to race, color, national origin, gender, age, religion, sexual orientation, disability, gender identity or expression, political affiliation, marital or parental status, genetic information and military service.
