

Wander down new trails. There's history at every turn!

The Ohio History Center is excited to celebrate with America 250—Ohio! We're a stop along several statewide story trails. As you explore the museum, look for icons to find featured objects.

Want to know more about the items on display? Follow our digital trail here:

Look for these trail icons throughout our exhibits:

Ohio Transportation Trail

We have planes, trains, and automobiles—trolleys and ship wheels, too. You can daydream about road trips in a '57 Chevy or imagine delivering milk by horse-drawn wagon. See how many other modes of transportation you can spot. Don't forget a trip to the 2nd floor plaza!

Ohio Innovation Trail

You'll find inventions, enhancements, and business ventures throughout the museum. Our 1950s Lustron home is hard to miss, and be sure to check out the *Made in Ohio* area in Gallery 1!

Ohio Creativity Trail

Creative Ohio is a rotating space dedicated to Ohio's art and artists. You'll find decorative arts in *Made by Hand* in Gallery 2. Kid creativity is on display upstairs, so take the elevator to the 3rd floor to check out *Hide and Seek*.

Lake Erie to Ohio River Trail

Nature of Ohio introduces many modern and ancient animals that have made their homes in Ohio's waterways. In Gallery 1, you'll also encounter artifacts from Ohio's canal system and steamboat era.
